ACKNOWLEDGEMENTS

I am indebted to my supervisor, Prof. Akhtar Mahdi, a dynamic and hard working person who helped me with his valuable suggestion, able guidance and personal support.

I am thankful to the faculty of CP&CAS, especially Dr. Akhlaq Ahmad and other faculty members who played a pivotal role in enhancing my interest in academics along with taking interest about the progress of my research work. I would also thank the staff of CP&CAS especially Baghat, Babita and Suresh for always helping me out whenever I landed in my trouble.

My profound thanks to Dr. Rajnesh sir, the senior warden of Periyar hostel for bestowing love and affection on me. I also thank office staffs of Periyar hostel who were always cooperative during my stay at the hostel.

The staffs of JNU library, Teen Murthi library, Maulana Azad Central library (AMU), need special thanks for helping me find published material.

Words cannot express my gratitude for my family members and Jawaid who believed in my potential and encouraged me. In fact, without them, this work would not have been completed. I would also remain grateful to Shabnoor who has always extended unconditional support to me right from B.A. days till the completion of this thesis.

I would like to mention the everlasting support of my friends in JNU whose contribution in making me is immense. Manoj kumar is the closest confidante of me who always stood by me in whatever endeavour of participated. My friends Vivek, Sanzer, Archana, Prashant, Valentina, Mirnal, Faisal, , Vijender, Kushagra, Sandip, Osama, S.N.Shashtri, Alok, Chander, Naresh, Jitendra, Maskoor, Sachin, Diwakar, Shivam, Chandan, Khalid, Najish Umar and Akki.

I would also like to thank my best friends Zia, Asim, Prakash, ,Rajive, Dilshad and Baby for their love and support.
I thank the Govt. of India for providing me UGC Fellowship which helped me to manage financial burdens at the rear end of my thesis work.

My friends and juniors of CP&CAS especially Yasir, Tarique, Sudhanshu and many others were very cooperative and helpful in many ways.

It would be injustice on my part if I do not mention LOVEY whose affectionate calls and whispers kept me charged, inspired and fresh even during the most depressing moments while working on this research work. And Rohini who always inspired and guided me with her sisterly counsel and affection.

Last but not the least; I would like to express my gratitude to Dr. Tarique Ata for his scholarly discussions and precious suggestions. Above all he remained a source of inspiration throughout the work.
