4.52 General Linear Model for Gilt Schemes (PERFORMANCE * PERIOD)
4.52 Turkey’s Post Hoc Test for Multiple Comparisons between time periods
5.1 Summary Statistics
5.2 Regression values for Traditional Model (TM) for Pre-Period (BSE)
5.3 Regression values for Traditional Model (TM) for Pre-Period (NIFTY)
5.4 Regression values for Traditional Model (HM) for Pre-Period (BSE)
5.5 Regression values for Traditional Model (HM) for Pre-Period (NIFTY)
5.6 Regression values for Conditional Model (TM) for Pre-Period (BSE)
5.7 Regression values for Conditional Model (TM) for Pre-Period (NIFTY)
5.8 Regression values for Conditional Model (HM Model) for Pre-Period (BSE)
5.9 Regression values for Conditional Model (HM Model) for Pre-Period (NIFTY)
5.10 Regression values for Traditional Model (TM Model) for Inter period (BSE)
5.11 Regression values for Traditional Model (TM Model) for Inter period (NIFTY)
5.12 Regression values for Traditional Model (HM Model) for Inter period (BSE)
5.13 Regression values for Traditional Model (HM Model) for Inter period (NIFTY)
5.14 Regression values for Conditional Model (TM Model) for Inter period (BSE)
5.15 Regression values for Conditional Model (TM Model) for Inter period (NIFTY) 191
5.16 Regression values for Conditional Model (HM Model) for Inter period (BSE) 193
5.17 Regression values for Conditional Model (HM Model) for Inter period (NIFTY) 195
5.18 Regression values for Traditional Model (TM Model) for Post-Period (BSE) 197
5.19 Regression values for Traditional Model (TM) for Post-Period (BSE) 199
5.20 Regression values for Traditional (TM) Model for Post-Period (NIFTY) 201
5.21 Regression values for Traditional (HM Model) for Post-Period (BSE) 203
5.22 Regression values for Traditional (HM Model) for Post-Period (NIFTY) 205
5.23 Regression values- Conditional (TM Model) for Post-Period (BSE) 208
5.24 Regression values of Conditional (TM Model) for Post-Period (NIFTY) 210
5.25 Regression values for Conditional (HM Model) for Post-Period (BSE) 212
5.26 Regression values for Conditional (HM Model) for Post-Period (NIFTY) 214
5.27 Summary of Regression results of unconditional TM Model 216
5.28 Summary of Regression results of unconditional HM Model 218
5.29 Summary of Regression results of Conditional TM Model 220
5.30 Summary of Regression results of Conditional HM Model 222
5.31 Range of Coefficient of Determination ($R^2$) 224
6.1 Statistics of Foreign Sector Mutual funds during pre. Inter and post period 230
6.2 Average Excess Return Performance for foreign sector during pre, inter & post period 231
6.3 Sharpe Ratio Performance during pre, inter and post periods for foreign sector 232
6.4 Jensen’s Alpha Performance during pre, inter and post periods for foreign sector 233
6.5 Statistics of Public Sector Mutual funds during pre. Inter and post period 234
6.6 Average Excess Returns of Public Sector Mutual Fund Schemes 235
6.7 Sharpe Ratio Performance for Public Sector Mutual Fund Scheme 236
6.8 Jensen’s Alpha Performance for Public Sector Mutual Fund Schemes 237
6.9 Statistics of Private Sector Mutual Funds during pre inter and post periods 238
6.10 Average Excess Return Performance for Private Sector Mutual Fund Schemes 240
6.11 Sharpe Ratio Performance for Private Sector Mutual Fund Schemes 243
6.12 Jensen’s Alpha Performance Table for Private Sector Mutual Fund Schemes 244
6.13 Contingency Table for Foreign Sector Mutual Fund Schemes 246
6.14 Contingency Table for Private Sector Mutual Fund Schemes 247
6.15 Contingency Table for Private Sector Mutual Fund Schemes 248
