## CHAPTER

1. **INTRODUCTION**

   1.1 Statement of the Problem | 4 |
   1.2 Significance of the Problem | 5 |
   1.3 Objectives of the Present Study | 7 |
   1.4 Statement of the Hypotheses | 8 |
   1.5 Assumptions and Limitations | 8 |
   1.6 Definitions of Terms | 12 |

2. **MEANING AND NATURE OF ATTITUDE**

   2.1 Meaning of Attitude | 16 |
   2.2 Definitions of Attitude | 18 |
   2.3 Variations in the Definitions | 20 |
   2.4 Common Elements in the Definitions | 21 |
   2.5 Attitudes and Similar Constructs | 22 |
       1. Opinion and Attitude | 22 |
       2. Belief and Attitude | 23 |
       3. Value and Attitude | 24 |
       4. Motives and Attitudes | 26 |
2.6 The Functions of Attitudes
1. The Instrumental Function
2. The Value Expressive Function
3. The Knowledge Function
4. The Ego-defensive Function
   (a) Prejudice
   (b) Stereotype

2.7 The Components of Attitudes
2.8 Dimensions of Attitudes

3. REVIEW OF RELATED LITERATURE

3.1 Foreign Literature
Adequacy of the Work Done Regarding the Attitudes Towards Mathematics
1. Methods of Measuring Attitudes Towards Mathematics
   (a) Observation and Interview
   (b) Questionnaire Items
   (c) Attitude-Scales
      i) Examples of Thurstone Scale
      ii) Examples of Guttman Scale
      iii) Examples of Likert's Scale
   (d) Other Measure of Attitude
2. Adolescent Attitudes Towards Mathematics
(v)
4. DESIGN OF THE STUDY 56-98

4.1 Description of Research Design 56
1. Types of Designs 56
2. Selection of Research Design 61
3. Types of Educational Research 63
4. Selection of the Method 63
5. Normative Survey Method 63
6. Kinds of Normative Survey Research 66
7. Selection of the Type of the Normative Survey 66

4.2 Sampling Procedures 67
1. The Population 67
2. Selection of the Sample 68
3. The Universe of the Study 70
4. Size of the Samples 71

4.3 Data-gathering Instruments 76
1. Attitude Measurement Techniques 76
2. Attitude Scales 77
3. Selection of the Tool 77
4. Likert's Summated Rating Technique 83
5. Good Points of Likert's Technique 84
6. Procedure of the Method of Summated Ratings 84
4.4 Statistical Treatment

1. Level of Measurement 88
2. Selection of Level of Measurement 88
3. Parametric and Non-parametric Data 90
4. Descriptive and Inferential Analysis 90
5. The Level of Significance 91
6. Statistical Procedure 92

5. CONSTRUCTION AND PREPARATION OF ATTITUDE SCALES 99-161

5.1 General Features of the Statements 99
5.2 Collection of Items 100
5.3 The Blue Print 101
5.4 First Try-Out 101
   1. First Scale 101
   2. Second Scale 101
   3. Third Scale 102
5.5 Second Try-Out 102
   1. Administration 103
   2. Scoring 104
5.6 Selection of the Items for the First-Scale (Regarding to Mathematics as a Whole Subject) 104
5.7 Selected Items for the Final Draft of First Scale 111
5.20 A Correlation Coefficient Between the School-
marks and the Scores on the Third Scale
(For Geometry) 147

5.21 Finalized Attitude Scales 150
1. First Scale : Attitude Towards
Mathematics as a Whole Subject 150
2. Second Scale : Attitude Towards Algebra 154
3. Third Scale : Attitude Towards Geometry 157

6. PRESENTATION AND ANALYSIS OF DATA FOR THE
MEASUREMENT OF ATTITUDES TOWARDS MATHEMATICS 162-260

6.1 Presentation of Data for the Measurement
of Attitudes 162

Frequency Distribution :
1. Frequency Distribution for Mathematics
   as a Whole Subject (First Scale) 162
2. Frequency Distribution for Algebra
   (Second Scale) 163
3. Frequency Distribution for Geometry
   (Third Scale) 164

6.2 Analysis of the Data 165

6.3 Mathematics as a Whole Subject (First Scale) 166
(A) Analysis of the Data for First Scale 166
1. Calculation of Mean, Standard Deviation
   and Standard Error of the Mean for the
   Whole Group 166
2. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Rural Students 168
3. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Urban Students 169
4. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Rural Girls 170
5. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Rural Boys 171
6. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Urban Girls 172
7. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Urban Boys 173
8. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Boys 174
9. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Girls 175

(x)
(B) Estimation of Mpop for First Scale
(Scale for Mathematics as a Whole Subject) 176

(C) Percentage of Favourable, Unfavourable and Neutral (indifferent) Attitudes Towards Mathematics 178

(D) Comparison of Attitudes Towards Mathematics
1. Attitudes of Urban Students Versus Rural Students 180
2. Attitudes of Urban Boys Versus Rural Boys 184
3. Attitudes of Urban Girls Versus Rural Girls 186
4. Attitudes of Urban Boys Versus Urban Girls 188
5. Attitudes of Rural Boys Versus Rural Girls 190
6. Attitudes of Boys Versus Girls 192
7. Comparison of Attitudes of Six Pairs of Groups Towards Mathematics 194

(E) Percentage of Responses for Each Individual Statement of the First Scale
(Scale for Mathematics as a Whole Subject) 195
1. High Agreement Statements 196
2. High Disagreement Statements 197
6.4 Algebra (Second Scale)

(A) Analysis of the Data for Second Scale

1. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Whole Group

2. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Rural Students

3. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Urban Students

4. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Rural Girls

5. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Rural Boys

6. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Urban Girls

7. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Urban Boys

8. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Boys
9. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Girls

(B) Estimation of Mpop for Second Scale (Scale for Algebra)

(C) Percentage of Favourable, Unfavourable and Neutral (indifferent) Attitudes Towards Algebra

(D) Comparison of Attitudes Towards Algebra

1. Attitudes of Urban Students Versus Rural Students

2. Attitudes of Urban Boys Versus Rural Boys

3. Attitudes of Urban Girls Versus Rural Girls

4. Attitudes of Urban Boys Versus Urban Girls

5. Attitudes of Rural Boys Versus Rural Girls

6. Attitudes of Boys Versus Girls

7. Comparison of Attitudes of six pairs of Group Towards Algebra

(E) Percentage of Responses for Each Individual Statement of the Second Scale (Scale for Algebra)
1. High Agreement Statements

2. High Disagreement Statements

6.5 Geometry (Third Scale)

(A) Analysis of the Data for Third Scale

1. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Whole Group

2. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Rural Students

3. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Urban Students

4. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Rural Girls

5. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Rural Boys

6. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Urban Girls

7. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Urban Boys
8. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Boys 236

9. Calculation of Mean, Standard Deviation and Standard Error of the Mean for the Group of Girls 237

(B) Estimation of Mpop for Third Scale (Scale for Geometry) 238

(C) Percentage of Favourable, Unfavourable and Neutral (indifferent) Attitudes Towards Geometry 240

(D) Comparison of Attitudes Towards Geometry 242

1. Attitudes of Urban Students Versus Rural Students 242

2. Attitudes of Urban Boys Versus Rural Boys 245

3. Attitudes of Urban Girls Versus Rural Girls 247

4. Attitudes of Urban Boys Versus Urban Girls 249

5. Attitudes of Rural Boys Versus Rural Girls 251

6. Attitudes of Boys Versus Girls 253

7. Comparison of Attitudes of six Pairs of Groups Towards Geometry 255

(xv)
(E) Percentage of Responses for Each Individual Statement of the Third Scale (Scale for Geometry) 256
1. High Agreement Statements 257
2. High Disagreement Statements 258

6.6 Summary of the Results After Analysis 259

7. INTERPRETATION 261-287

7.1 First Scale (Mathematics as a Whole Subject) 261
1. Attitudes of Whole Group and Sub-Groups 261
2. Percentage of Favourable, Unfavourable and Neutral Attitudes 262
3. Attitudes of Urban Students Versus Rural Students 263
4. Attitudes of Urban Boys Versus Rural Boys 264
5. Attitudes of Urban Girls Versus Rural Girls 265
6. Attitudes of Urban Boys Versus Urban Girls 265
7. Attitudes of Rural Boys Versus Rural Girls 266
8. Attitudes of Boys Versus Girls 267
9. Percentage of Responses for Each Individual Statement of the First Scale (Mathematics as a Whole Subject) 267
7.2 Second Scale (Algebra)
1. Attitudes of Whole Group and Sub-Groups 269
2. Percentage of Favourable, Unfavourable and Neutral Attitudes 270
3. Attitudes of Urban Students Versus Rural Students 271
4. Attitudes of Urban Boys Versus Rural Boys 272
5. Attitudes of Urban Girls Versus Rural Girls 273
6. Attitudes of Urban Boys Versus Urban Girls 273
7. Attitudes of Rural Boys Versus Rural Girls 274
8. Attitudes of Boys Versus Girls 275
9. Percentage of Responses for Each Individual Statement of the Second Scale (Algebra) 276

7.3 Third Scale (Geometry) 278
1. Attitudes of Whole Group and Sub-Groups 278
2. Percentage of Favourable, Unfavourable and Neutral Attitudes 279
3. Attitudes of Urban Students Versus Rural Students 280

(xvii)
4. Attitudes of Urban Boys Versus Rural Boys 281
5. Attitudes of Urban Girls Versus Rural Girls 282
6. Attitudes of Urban Boys Versus Urban Girls 283
7. Attitudes of Rural Boys Versus Rural Girls 283
8. Attitudes of Boys Versus Girls 284
9. Percentage of Responses for Each Individual Statement of the Third Scale (Geometry) 285

7.4 Summary of the Results 286

8. CONCLUSIONS AND RECOMMENDATIONS FOR 288-306
FURTHER WORK
(A) Conclusions :
8.1 Introduction 288
8.2 Conclusions About Mathematics as a Whole Subject 290
8.3 High Agreement and High Disagreement Statements (About Mathematics as a Whole Subject) 292
8.4 Conclusions About Algebra 294
8.5 High Agreement and High Disagreement Statements (About Algebra) 295

(xviii)
8.6 Conclusions About Geometry 297
8.7 High Agreement and High Disagreement Statements (About Geometry) 298
8.8 General Conclusions 300

(B) Recommendation for Further Work 304
(a) Educational Implications as Reflected From Conclusions 304
(b) Topics for Further Research 306

BIBLIOGRAPHY 307-317
1. Books and Brochures 307
2. Periodicals 312

APPENDIX 318-381
