LIST OF FIGURES

Figure 1.1 The depiction of the proposed model of the impact of Holistic Education intervention on value preference, social competence and leadership skills at construct level ........................................................................... 26

Figure 3.1 Flowchart of methodology of research ................................................................. 57

Figure 4.1 Classification of the sample based on the branch of the study. ......................... 83

Figure 4.2 Classification of the sample based on the gender. ............................................. 83

Figure 4.3 Classification of the sample based on their religion. ........................................ 84

Figure 4.4 Classification of the sample based on their kind of stay ................................. 84

Figure 4.5 Classification of the sample based on their region they hail from ............... 85

Figure 4.6 Mean scores of values with respect to the branch of study ......................... 87

Figure 4.7 Mean scores of values with respect to the gender ........................................ 88

Figure 4.8 Mean scores of values with respect to the religion .................................... 90

Figure 4.9 Mean scores of values with respect to the kind of stay .......................... 91

Figure 4.10 Mean scores of values with respect to the region ..................................... 93

Figure 4.11 Mean scores of social competence with respect to the branch of study .... 94

Figure 4.12 Mean scores of social competence with respect to the gender .................. 96

Figure 4.13 Mean scores of social competence with respect to the religion ............... 97

Figure 4.14 Mean scores of social competence with respect to the kind of stay ......... 99

Figure 4.15 Mean scores of social competence with respect to the region .............. 100

Figure 4.16 Mean scores of Leadership skills with respect to the branch of study ........................................... 102

Figure 4.17 Mean scores of Leadership skills with respect to the gender ................... 104

Figure 4.18 Mean scores of Leadership skills with respect to the religion ............... 105

Figure 4.19 Mean scores of Leadership skills with respect to the kind of stay ........ 107

Figure 4.20 Mean scores of Leadership skills with respect to the region ............... 108

Figure 4.21 Graphical representation of the scores of value preference ............... 115

Figure 4.22 Graphical representation of the scores of value preference based on branch of study ........................................................................................................ 119
Figure 4.23 Graphical representation of the scores of value preference based on gender ................................................................. 123
Figure 4.24 Graphical representation of the scores of value preference based on religion ........................................................................ 127
Figure 4.25 Graphical representation of the scores of value preference based on kind of stay ................................................................. 130
Figure 4.26 Graphical representation of the scores of value preference based on region ............................................................................ 133
Figure 4.27 Graphical representation of the scores of social competence ................................................. 141
Figure 4.28 Graphical representation of the scores of social competence based on branch of study ........................................................................ 146
Figure 4.29 Graphical representation of the scores of social competence based on gender ........................................................................ 150
Figure 4.30 Graphical representation of the scores of social competence based on religion ............................................................................ 154
Figure 4.31 Graphical representation of the scores of social competence based on kind of stay ........................................................................ 158
Figure 4.32 Graphical representation of the scores of social competence based on region ............................................................................ 161
Figure 4.33 Graphical representation of the scores of leadership skills ......................................................... 169
Figure 4.34 Graphical representation of the scores of leadership skills based on branch of study ........................................................................ 174
Figure 4.35 Graphical representation of the scores of leadership skills based on gender ........................................................................ 177
Figure 4.36 Graphical representation of the scores of leadership skills based on religion ............................................................................ 182
Figure 4.37 Graphical representation of the scores of leadership skills based on kind of stay ........................................................................ 186
Figure 4.38 Graphical representation of the scores of leadership skills based on region ............................................................................ 189
