It gives me great pleasure to express my deep sense of gratitude and sincere thanks to my research guide Dr. K. M. Paknikar for his guidance throughout this work. It was not less than an honor to work under his supervision. His critical and accurate remarks always gave a new dimension to my pursuits. His constant support and motivation was invaluable and went a long way towards the completion of this thesis. He is as good a guardian as a guide and always stood by me in testing times. I deeply appreciate his positive and enthusiastic approach towards everything. In these few years I have tried to imbibe his ardor for hard work, enterprising skills, clarity of thoughts and his unmoved passion towards science for the benefit of mankind.

I'm grateful to Dr. V. S. Rao, Director, Agharkar Research Institute, Pune, for giving me the opportunity to work in this institute. I wish to thank Dr. (Mrs.) P. P. Kanekar, Division In charge, MSD, for her encouragement and support. I am thankful to the Indian Council of Medical Research, New Delhi for funding me throughout the period of my Ph.D. I would also like acknowledge Nano Cutting Edge Technologies Pvt. Ltd., Mumbai, India, for technical support during commercialization work.

My sincere thanks to Ph.D. advisory committee members, Dr. D. R. Ranade, Scientist, MSD, Agharkar Research Institute, Pune and Dr. M. M. Gore, Scientist, National Institute of Virology, Pune, for their helpful suggestions and comments during my study. I am equally thankful to Dr. (Mrs.) S. K. Paknikar for her interest and valuable inputs in my research work.

It gives me pleasure to thank Dr. (Mrs.) Jyutika Rajwade for her suggestions and efforts during all the time of research and writing of this thesis. My sincere thanks also goes out to Dr. Alok Bokare for his timely help and advice during the course of this work. I would also like to thank Drs. Sangeeta Kale and Ruchika Kaul.

I wish to acknowledge the cooperation extended by all the staff and students of various research groups at ARI as well as the staff members of library, accounts, administration, instrumentation and photographic unit.

I take this opportunity to place on record my sincere thanks to my seniors Dr. Meenal Kowshik, Dr. Archana Mohod, Dr. Bipin Raj and Mr. Santosh Tupe who have gone out of their way to help me in various capacities and in getting me familiarized with all the lab facilities and making me feel at home during my initial days of Ph.D. My heartfelt thanks to all my labmates- Vijender, Sarang, Anirban, Prabhakar, Shailesh, Anita, Varima, Kavita, Rupali, Rinku, Manisha and Shradha, who have always helped me in one way or other. A special mention of thanks to my colleagues Sumit Arora, Hitesh Mangain and Tejaswani Pachpor for their wholehearted support.

Lastly and most importantly, my deepest love and gratitude goes to my family: my husband Gaurav Navlakha, my parents in-law and sister in-law Mansi for their love, patience and encouragement, which kept me kicking through my thesis. I owe my sincere thanks to my dear parents without their understanding and support it would have been impossible for me to finish this work. My special gratitude is due to my brother and his family for their loving support.
