MESSAGE

Dear Graduates,
Once again the Symbiosis International Students’ Council has made me proud by surpassing my expectations in organizing the International Students Convocation Ceremony for students across the country. Symbiosis has yet proved another platform which enables all international students to come together. It makes me happy to see my vision of creating a ‘home away from home’ for international students being realized year after year. The souvenir magazine released every year on this occasion is a long held tradition at Symbiosis. I hope that it will always help you keep alive the memories of your experiences here. It will be your lifetime moment. This may be the end of your college education, but it is also the beginning of a new career. Wish you all the best. God bless you!!

Prof. Dr.S.B.Mujumdar
President & Founder Director
Symbiosis International University
MESSAGE

Dear International Students,

Congratulations for being successful and eligible for receiving degree from this prestigious university. As you must have experienced, Symbiosis International University (SIU) is one of the most sought destination for Indian and International students, which has gained reputation for commitment for high quality learning and teaching. The beautiful sprawling 300 acres Lavale campus and other campuses in Pune and other cities attract students from different countries, regions, ethnicity and cultures provide a vibrant and symbiotic ecosystem.

At SIU, we try hard to provide a congenial atmosphere for the holistic development of students supported by curricular, co-curricular and extracurricular activities. With collaborative networks of several Universities from different parts of the world, SIU provides very conducive, interactive, inspiring environment to create true global citizens who are ready to contribute to their respective countries and to the humanity.

As you must have experienced, the ethos of Symbiosis the motto of "Vasudhaiva Kutumbhakam". The sense of "one world, one family" has been deeply engrained in our students manifesting itself during their professional lives irrespective of the type of organization or the land they choose to be in. This has, over the years, turned out to be the hallmark of our students who has shown professionalism in putting the needs of their organizations before themselves.

I hope your experience at SIU to become "global citizen" was enjoyable and would help shape your career and future. I also appeal that all of you must continue to be proud Symbiosis alumina and give back whatever best you can by remaining connected with us to help future students.

On behalf of the Symbiosis family I wish you all the very best!

(Dr. Bhushan Patwardhan)
Vice Chancellor
Symbiosis International University
The International Students' convocation is a unique event in every sense of the word. I am proud of all the students who get together to organize this event. I am aware of all the efforts put in by students during the course of their education. I would therefore aptly like to congratulate all the students graduating this year.

Pune is known as the oxford of the East because of academic and cultural opportunities it offers. Its hospitality attracts students from all over the world.

Hope your stay in Pune and India has widened your horizons and enriched your personalities.

I am confident that you have acquired knowledge and skills to make you succeed in your endeavours.

Be proud of your achievements and spread the ethos and values you have gained during your stay in India.

Remember to carry the good memories of Pune and India and become goodwill ambassador of your Alma Matar.

My best wishes are with each and all graduating this year.

Dr. Vidya Yeravdekar
Principal Director
Symbiosis International University
Dearest students, this is your big day! You must be excited, happy and your minds must be buzzing with lots of ideas. Ideas which have taken shape and been influenced largely by people that you have been associated with in Symbiosis and in India. We at the Symbiosis Centre for International Education have strived to make your association with people of substance who could influence your ideas and thoughts on society, friendship, culture, and community. In this Diaspora of culture we have seen you learn and develop as beautiful stars in the night sky, unique, bright and luminous.

The principle that guides us at the Symbiosis Centre for International Education is our Founder Director Dr S B Mujumdar’s motto of "Vasudhaiva Kutumbakam" - "The world is one family" and we have always endeavored to create for you a 'Home away from Home' here at Symbiosis. As you leave for greener pastures there are two simple rules to life that we would like to leave you with:

Rule 1: Feed your mind. Just as you want the best for your body and feed it with nutritious food, do the same with your mind. Feed it with excellent ideas, wherever they may be found. Always be on the lookout for a great idea-for business, for a product, for a service and for personal improvement. Every new idea will help to improve your thinking a little bit and the sum of all this will guide your life, and allow it to unfurl with distinction and satisfaction.

Rule 2: Find allies rather than idolisers. You might find it easy to be around people who idolise you, but they will never tell you when you have messed up. Your growth will come from seeking out allies who are candid with you when you feel you are not achieving your potential, people who defy you to be bringing out the best in yourself.

Dear students, you are now on the verge of a new journey which will take you into a world of new opportunities and diverse careers. We have complete confidence that the wealth of knowledge and understanding that you have acquired here, will take you a long way in your life. On behalf of all of us from Symbiosis, we congratulate you on this special day of yours and wish you all the best in all your future endeavours.

With warm regards,

Supriya Chouthoy
Head, SCIE
Symbiosis International University
The convocation ceremony is an important landmark in a student's life. Graduation ceremonies are normally organized by universities in India during the month of December. But since most foreign students have already left India by this time, they are deprived of this wonderful memory. We at Symbiosis aim to fulfill a students' dream of walking down the aisle with a robe and cap by organizing the International Students Convocation Ceremony. We are extremely proud to be given this wonderful opportunity to host the International Students Convocation Ceremony for international students not only from the city of Pune but also for students from all over India.

At the Symbiosis Centre for International Education (SCIE) we have tried our level best to provide you with assistance, support and guidance to solve all your problems and make your international experience a fruitful one. We have tried to guide you as we would guide our own children, showing you the right path when we know that you have strayed and encouraging you in all your pursuits, be it academics or other extracurricular activities.

As a part of enriching your international experience, the last year saw us organizing the Food Festival, the Flag Hoisting Ceremony, NGO visits, Blood Donation Camps, Tree Plantation ceremonies and a Dance Competition along with the Symbiosis International Students Council. There is no limit to our pride on seeing you on stage; performing and displaying your talents where we are able to better absorb the cultural essence of your nations. Our International Food Festival was a gourmet treat where we enjoyed the varied flavors and cuisines of your diverse backgrounds.

It gives us great pleasure to extend our warm greetings and congratulations to all the international students passing out from the different colleges in Pune and other Universities in India. I hope that this Convocation ceremony will be a memorable one as all of you reflect on your years of hard work and achievements. It is the end of one journey in life but also the beginning of another more challenging journey along with the responsibility. We wish all of you a good fortune and success ahead. May the next step you take be the right one for you - a step towards fulfilling your own dreams and of service to your family, community, country and the world!

SCIE team would like to thank all the top management for having given us the support so that we in turn could support you. We would like to acknowledge all the help that we have received from the Symbiosis International Students' Council in making it all happen.

Best wishes from Team SCIE
Dear Graduates,

I take this great opportunity to extend my congratulations to all the graduates. This is one of the most important days for the graduates and now they are receiving the fruit of their labor.

Symbiosis has always been recognized as the most interactive university among the international students. It creates a feeling of belonging for the foreign students. Similarly, this year we are participating in the International Graduation Ceremony and we have students all over India. I take this opportunity to thank Dr. Mujumdar Sir and the Symbiosis Society for organizing this wonderful event and bringing a smile on all faces of the foreign Students.

Students from all over the world come to one destination where they share one of their most cherish-able moments, reward themselves for the years of hardworking, sincere dedication and exchange well-wishes before they conclude a chapter and commence a new one.

Last but not the least; I thank all my students' Council and Graduation Committee members for their efforts and support. We have worked as a team with Great Spirit in making this event success.

I wish everyone all the best in their future life and a bright career.

GOD BLESS YOU ALL

Punita Shah  
President  
Symbiosis International Students' Council
MESSAGE

I am happy to know that the Symbiosis Society is organizing "Convocation Ceremony" exclusively for foreign students passing out from different colleges in Pune and also from other Universities in India on 11th June 2011.

It gives an excellent opportunity to outgoing foreign students who have completed various degree programmes to meet together and share their experiences of studies in India. Since these students are the brand ambassadors of Indian education in different foreign countries, their feedback will be highly beneficial for expanding the horizon of global education in India.

I wish good success to the organizers for this "Convocation Ceremony" and also to its souvenir providing inspiration and encouragement in its endeavour.

(P. N. Razdan)
Vice Chancellor
Dr. D. Y. Patil Vidyapeet Pune
MESSAGE

I am delighted to know that SYMBIOSIS Society, Pune is organizing a Convocation Ceremony exclusively for foreign students on the 11th of June 2011. I am happy to note on this occasion souvenir will be published. It gives me immense pleasure to send few words on the auspicious occasion of "Convocation Ceremony". The SYMBIOSIS Society has a unique distinction of attracting large number of foreign students. One of the major features is its large and growing international student community and continues its distinction as the most preferred destination for international students coming to India.

I appreciate the efforts made by you and all staff of SYMBIOSIS Society for organization of Convocation Ceremony and convey my best wishes to the publication of Souvenir. I express my heartiest wishes to the SYMBIOSIS for its future endeavours.

R. K. Shevgaonkar
Vice-Chancellor
University of Pune
MESSAGE

MESSAGE FROM THE VICE-CHANCELLOR

It is a matter of great pleasure for me that SYMBIOSIS proposes to publish its Souvenir on the occasion of this year’s Convocation Ceremony exclusively for foreign students. This publication will be an opportunity for the students to share their experiences in contributing towards higher learning and development of social welfare.

I really appreciate the tireless efforts of members in promoting the noble cause of Higher Education System.

I wish every success to the "Souvenir" and its Publication team in this endeavour.

With personal regards,

Pune. 13-5-2011

(Deepak J. Tilak)
Vice Chancellor
Tilak Maharashtra Vidyapeeth
MESSAGE

The Symbiosis University which has started its journey as College in the year 1971 has achieved tremendous progress in imparting quality education that paved the way to get globally recognized university. I extend my heartfelt congratulation for its outstanding performance in providing world class quality education and maintaining class standard. I thank the college staff for the care and support to the Omani students studying in different streams. I wish the college and the staff all the best in their future noble goals.

With all best wishes

Humaid Al- Ma’ani,
Ambassador Sultanate of Oman to India
MESSAGE

Dear Mr. President,

I am happy to learn that SYMBIOSIS is going to organize a "Convocation ceremony" on 11th June 2011 in Pune. I am impressed by the remarkable success and outstanding growth of SYMBIOSIS as an educational Institution over a short span of time. I am very pleased to learn that SYMBIOSIS also has a number of students from Bangladesh along with other foreign students every year. I am happy to learn about the efforts and contributions being made by SYMBIOSIS to make the stay of foreign students in India happy, comfortable and productive. I understand that the SYMBIOSIS is providing all these students with a platform for them to interact and exchange their perceptions on various issues in respect to their own countries with their Indian fellow students. It is only through such greater and sustained people-to-people contact that we can enhance and deepen mutual understanding and respect in young minds for each others' political, social, economic and cultural legacies. Towards this desired end, SYMBIOSIS is doing a wonderful job in helping students from India and abroad building bridges of friendship with each other. This has, assuredly, a broader implication in bringing peace, stability and harmony in this troubled region and world.

I look forward to having closer interaction with SYMBIOSIS in the coming days and wish it and its forthcoming Convocation great success.

With all best wishes,

Yours sincerely,

Prof. Dr. S. B. Mujumdar, M. Sc, PhD.
President

People’s Republic of Bangladesh
23rd May 2011
MESSAGE

I am pleased to learn that the Symbiosis is scheduled to organize this year’s “Convocation Ceremony” for foreign students on 11th June 2011.

India has been viewed since time immemorial as a fountain of knowledge by Sri Lankans, especially by the student community of Sri Lanka. Every year, an ever increasing number of students from Sri Lanka arrive in India seeking higher education. Sri Lankan students find India and its people as hospitable, its seats of learning as comfortable in terms of cultural affinity and south Asian traditions.

I would like to avail this opportunity to thank symbiosis for its leading role in the past few decades in offering numerous educational opportunities to young people from Sri Lanka and around the world.

I wish the symbiosis all success in all its endeavors.

Prasad Kariyawasam
High Commissioner of Sri Lanka to India
MESSAGE

First Counsellor
Embassy of the Republic of Burundi
C-1/24, Vasant Vihar

email: ambabudelhi@yahoo.fr

Educational standard and facilities available in a country like Burundi reflect to its social-economic development. Now-a-days the numbers of schools, colleges & various institutes which are in efforts to provide the finest and diversified education system to the population has been increased from the past few years. This, of course is a constructive sign towards the growth of the countries. Our government has also taken few prominent steps towards education especially underprivileged society by providing them scholarships from national and international institutions. The work is in progress and I hope we will get support from all over the world's good institutes.

Best wishes,

BAPFINDA Epimeni
First Counsellor
Embassy of the Republic of Burundi
Dear Dr. S. B. Mujumdar,

I wish to refer to your letter dated 6 May 2011 inviting me to attend a convocation ceremony to be organized exclusively for foreign students who are graduating from universities across India on 11 June 2011 at the Symbiosis campus in Pune.

I wish to take this opportunity to express my appreciation to you and the administrators/faculty members at ELTIS for having taken good care of the Thai students under the Royal Patronage of Her Royal Highness Princess Maha Chakri Sirindhorn of Thailand over the past few years. The students' experience at ELTIS has proven to be a valuable asset in their pursuit of higher education in India.

However, due to a prior commitment, I regret that I will not be able to accept your invitation. I have forwarded your letter to the Royal Thai Consulate-General in Mumbai and will encourage Mr. Tomwit Jarnson, Consul-General, to attend the ceremony.

I congratulate the graduates on their success and wish them all the best in their future endeavors.

Yours sincerely,

(Piscan Manawapat)

Ambassador
The Duty

The word duty is often viewed negatively in our culture. Many people don't like the idea of it, feeling that duty would restrict them and hinder them from living in the moment to me, the world duty represents freedom and happiness. And leadership and authentic success is about doing what what's right rather than what's easy.

Speaking your truth means speaking from your heart.

When you devote yourself to excellence in everything you do, you begin to feel a greater sense of positive pride about the way is conducting your days.

I would like to take this opportunity to thank DR S.B Mujumdar sir. I would like also to thank Dr. Vidyà Yeravdekar Ma'am, and the staff of the Symbiosis Center for International Education for their support to the international students’ council.

Last but not the least I would like thank all those who have contributed into making this graduation a reality, to all my friends in Hyderabad who welcomed us and made our job easier, Mohamed Adriano my special thanks to the hardest workers who are always behind me, Hanim Ibrahim and Varsha Dajee "misunderstanding is better for good understanding". Thanks for all the graduation committee members and all the council members.

A great future lies ahead of each one of you and I wish you the very best.

Congratulations to all of you!

Ahmed Hasbo Mohamed -
Sudan
General secretary,
Symbiosis International students' council 2011
Technology is what creates wealth. And as Kwame Nkrumah said: "Socialism without science is void." So technology is the engine that creates economic wealth. And as we know Africa is the poorest continent. And in order to alleviate poverty we need to create wealth. So we need more scientists that will allow us to create wealth and develop Africa.

To compete, the next generation of Africans must become more knowledgeable workers. They must be trained for the jobs of the Information Age and not the jobs of the Industrial Age. We are at an age where 5 billion of the world's 6.6 billion people have cellular phones. In the future, 6.6 billion people will have computers that are connected to the internet. In the 21st century, ground breaking discoveries are being made at the frontier of scientific knowledge.

That frontier is a territory that can no longer be seen with the unaided eye. We use a microscope to reveal things too tiny and a telescope to see things too distant. The particle accelerator needed to discover the smallest sub-atomic particle and the telescope needed to discover the farthest galaxy both cost about 20 billion dollars. To make a ground-breaking discovery and thus push the frontier of scientific knowledge requires billions of dollars.

The path to scientific discoveries and technological inventions is through reading and writing. We cannot popularize science without, first and foremost, cultivating a reading culture. Africans must go beyond textbooks, newspapers, junk magazines, and home videos. Even a 24/7, high-bandwidth internet access will never substitute for critical thinking that can only be nurtured through life-long reading. Technology is a resource that empowers the world's poorest nations. There is simply no faster path for development than technological knowledge. Technology is Africa's next resource.

"Forty years ago, Ghana and the Republic of Korea had virtually the same income per capita. By the early 90s Korea's income per capita was six times higher than Ghana's. Some reckon that half of the difference is due to Korea's greater success in acquiring and using knowledge" Technological creativity and innovation will allow Africans to create more wealth with the continent's diminishing natural resources. The 21st century calls for a greater reliance on discovery and invention. For Africa to take center stage in tomorrow's economic world, it must push the frontiers of science and acquire the technological knowledge needed to compete in the 21st century.

Symbiosis International Students Council 2011

The Role of Technology in Africa's development
When the day comes, will you be wise enough to spot those skinny little golden haps and dynamic enough to go get them before someone else does? Hopefully, your instincts should nod a LOUD "Yes!", as I wish you best of luck and all the best!

I won’t say what is already obvious to you; however I will say that which needs to be diaphanous to you. If you work hard, and put in your best and purest dints into your education, you will not only produce excellent results, but will also fetch yourself laudatory remarks from others, as they notice you and your beautiful achievements. And in the middle of all those thick formal congratulatory moments shall be thin haps and tenuous opportunities, which will be out there to reward you for being so strong in what you do, as well as help you hone your fortes.

Many a times, you get so caught up with celebrating the little success of life that you don’t stop and realize those chances that breeze through right in front of you - and right under your nose - which can actually lead you to even bigger success. This leads me to ask you:

When the day comes, will you be wise enough to spot those skinny little golden haps and dynamic enough to go get them before someone else does? Hopefully, your instincts should nod a LOUD "Yes!", as I wish you best of luck and all the best!
