Plate-25: Mythological Trail in the Indira Gandhi Rastriya Manav Sangrahalaya, Bhopal, Madhya Pradesh
Poor Information Dissemination

Plate-26: Poor display of exhibits in the Chandraketugarh Museum, West Bengal

Plate-27: Poor display of exhibits in the Balanda Pratna-Sangrahashala, Harowa, West Bengal
Information Dissemination through
Signboard and Naming of Building, Housing Exhibits

Plate-28: Glowsign and Signboards in front of the Aquarium, Port Blair, Andaman and Nicobar Islands, showing the name and content with descriptions. The name Aquarium itself informing about the content.

Plate-29: Naming of the Cellular Jail as a 'National Memorial' informing about its importance.
The Andaman Committee headed by Col F. J. Mouat assessed that Ross Island would be suitable for settlement. On 20th March 1856, Ross Island, named after an illustrious marine surveyor, Sr Daniel Ross, was occupied by Dr James Patterson Walker an experienced Jail Superintendent who arrived in Port Blair with 4 European officials, 773 convicts and an Indian overseer, a 50 men naval guard and two doctors. crude barracks of bamboo and grass were erected for the convicts while the rest of the party lived onboard the ships that had brought them. The convicts main cleared the jungle and built huts, offices, barracks and other structures so Ross Island grew from a settlement to a town. From 1872, the Andaman and Nicobar Islands were formed into a Chief Commissioner's Circuit under Lord Mayo. The British, now is an Open Air Museum.
Information Board and Label
