ACKNOWLEDGMENT

At the outset, I express my deep gratefulness to my Teacher and my Supervisor, Prof. Dr. V. N. Jha, Director, CASS, University of Pune. In quest of śādhanā in Mysticism, when I was moving for years from the Institute of Medical Sciences, B.H.U., Varanasi, to many Yogis, Siddhas and Scientists, finally, the benevolent guidance of Dr. Jha showed me the way of completing this research, where I could find that knowledge inheres all śādhanās. I take this opportunity of offering my indebtedness to him.

Swami Dayānanda Saraswati, formerly Head of Sandeepany West of Vedanta and Sanskrit Studies, Chinmaya Mission, U.S.A, had provided the financial support for my M. Phil. work and had reviewed the work with great appreciation. The present Ph. D. Dissertation is an extension of the said M. Phil. work. I take this opportunity to express my sense of gratitude to Swami Dayananda Saraswati.

The line of preceptors who took me into confidence providing deep insight into the subject are the Swami’s of Yogoda Satsang Society of India, Ranchi and Bihar school of Yoga, Munger, now coming up as a deemed University of Yoga. I offer my worshipful gratitude to all of them.

My heartfelt gratitude is to the saints of Gurudev Sidha Peetha, Ganeshpuri, Maharashtra, with whom I could experience and describe the topics like 'Play of consciousness' and 'Dance of Siva'. I am indebted to Prof. H.R. Nagendra, the formerly NASA Scientist and presently Director, Vivakanaanda Yogas, Bangalore, for imparting me training in Yogas and Vedanta by virtue of which I could test and describe a number of topics of this work. I am thankful to Prof. K.V. Sharma, who gave me a research training at VVRI, Hoshiarpur, with the opportunity to work with Motilal Banarsidass, Delhi, in the project 'Ancient Indian Tradition and Mythology', sponsored by UNESCO. I am grateful to Prof. K.N. Udupa, the formerly Director, World Health Organization and Director, Institute of Medical Sciences, B.H.U. for granting me a research fellowship in his Medical College and allowing me to work there on Yoga in Kashmir Tantra. I am grateful to
my previous research supervisor and CO-supervisor, Prof. N.S.S. Raman, Dept. of Philosophy and Dr. H.R. Singh, Institute of Medical Sciences, B.H.U., Varanasi, where my doctoral research progressed a year in 1980. Last but not the least, I pay my gratitude to the supervisor, and advisor of my M. Phil work which has now blossomed into this doctoral thesis. They are Dr. Mrs. Uma Pandey and Prof. Debabrata Sensharma, Director, Asiatic Society, Calcutta.

I am thankful to UGC authorities for providing me financial support to complete this research. The labour of the Computer 'Spangle' is also acknowledged with thanks.

P. K. Acharya
