Learning and education begins from 'home' right from birth and the urge to know more and more drives us constantly. Our teachers impart 'direction' and mould our thinking in the desired direction. I shall always be indebted to my mother and my teachers for better guidance in achieving best of every thing.

It is with a deep sense of gratitude that I take this opportunity to express my sincere thanks to my honourable and learned teacher and Guide Dr. R.S. It is my proud privilege to have been associated with and remain under his constant vigilance. The joy and experience of working under his guidance is really something out of this world. His valuable suggestions, constructive criticism, meticulous attention and authentic corrections have made this work possible.
