ACKNOWLEDGEMENTS

The satisfaction that accompanies the successful completion of any task would be incomplete without the mention of the people who made it possible.

Words are insufficient to express my feelings of indebtedness and sincere thanks to my guide Dr. M. K. Mahesh, Associate Professor, Department of Botany, Yuvaraja’s college, Mysore for his constant encouragement, ideas, zeal to work, excellent guidance and critical reasoning of the topic, which lead to the successful completion of the thesis work.

I express my deep sense of respect and gratitude to Professor K. A. Raveesha, Chairman, Department of Studies in Botany, Professor G. R. Janardhana and Dr. Shobha Jagannath, Department of Studies in Botany, Manasagangotri, for their valuable suggestions and encouragement. I wish to sincerely thank Principal of Yuvaraja’s College, Mysore for providing me necessary facilities in the college.

With overwhelming sense of gratitude, extreme honour and indebtedness, I wish to express my warm feelings to Prof. S. P. Hosmani for his guidance and support during the preparation of the thesis.

I sincerely express my heartfelt gratitude to Prof. Sheshashayee, Department of Crop Physiology, G. K. V. K., Bangalore for his kind co-operation and guidance given to me during my field and analysis work.

It is my privilege to thank Sri Gangadharaiyah, rice breeder and Sri Shivakumar, rice breeder V. C. Farm, Mandya, for timely help in providing information and seed samples during my work. My sincere thanks to Dr. Krishna Prasad, Pathologist, V. C. Farm, Mandya, for his kind support during the work.

I remain highly indebted to Prof. T. D. Subbanna, Director, College Development Section, JSS Mahavidyapeetha, Mysore, for rendering timely administrative support during the tenure of my thesis work.
It’s my privilege to express my sincere regards to P. Niranjan, Environmental officer Dr. M. K. Sudha, Assistant Environmental officer and Shivakumar H.M. Scientific Officer, Karnataka State Pollution Control Board, for providing facilities that enabled me to successfully complete the thesis work. I express my sincere thanks to Dr. Lancy D’ Souza, Associate Professor of Psychology, Maharaja’s College Mysore, especially for statistical Analysis.

I would like to thank Mr. Prakash and family, Chennasoge, Hunsur Taluk, for providing space in their paddy field to carry out my field studies.

My gratitude to the staff members and non teaching staff, Department of Botany and Yuvaraja’s college for their timely help and support.

I cannot forget Dr. Nagalambika, who always stood by me during the course of this work. I always cherished the company of Anupama, Savitha madam, during our laboratory work. Alka and Karthick were great companion during my study.

With great honour and affection, I wish to express my hearty feelings to Dr. Uma Mahesh, for her wishes and moral support during the course of the study.

Last but not least, I would like to thank my family. The constant inspiration by my mother Smt. N. Rajeswari, kept me focused and motivated. I am grateful to my father Sri C. Basavaraju; I would have not reached this stage, without his support. I express my great love for the inspiration, encouragement and moral support imparted to me by my sister Smt B. Sowmya and my brother Chandrashekar. B.

Finally I also thank one and all who helped me directly or indirectly in carrying out my work, and express my apology for not mentioning personally one by one.

SAPNA B.
