Contents

I Preface

II Introduction

1. Introduction : 3
2. Shukra at a Glance : 3
3. Pomposity of Shukra in Ancient Literatures : 11
4. Physiology of Male Sexual Function 12
4.1 Libido 12
4.2 Erection 13
4.3 Ejaculation 14
4.4. Orgasm 15
4.5. Detumescence 15
4.6. The basic sexual cycle 15
4.7 Mechanism of Penile erection 16
5. Nidan (Aetiology) 17
6. Rupa (Clinical features) 17
7. Upadrava (Complication) 18
8. Vyadhi Vyabachheda (Differential Diagnosis) 18
8.1. Shukramaha 18
8.2. Spermaturia 19
8.3. Albuminuria 19
8.4. Glycosuria 19
8.5. Phosphaturia 19
8.6. Klaibya 19
9. Vyadhi vinishcaya (Diagnosis) : Spermatorrhea 19
10. Sadhyasadhyatta (Prognosis) 19
11. Management 20
11.1. Prophylaxis 20
11.1.1. Swasthavritta (Personal hygiene) 20
11.1.1.1. Dinacarya (Daily routine)  
11.1.1.2.1. Ahara, Vihara and Ahitas in different Ritus  
11.1.1.3. Sadvritta (Socio-behavioural conducts)  
11.1.2. Application of Rasayana and Vajikarana:  
11.1.2.1. Rasayana  
11.1.2.2. Vajikarana  
11.1.3. Practice of Yoga  
11.1.4. Acara Rasayana  
11.1.5. Samshodhan therapy (Purification therapy)  
11.2. Curative  
11.2.1. Removal of aetiological factors.  
11.2.2. Elimination of any mental cause responsible for genesis and maintenance of the disease.  
11.2.3. Avoidance of any addiction like Ganja opium, alcohol, heroin etc.  
11.2.4. Bad habits like masturbation must be given up.  
11.2.5. Samshodhana therapy (Internal Purification)  
11.2.6. Yuktivyapashraya Chikitsa (Therapy based on reasoning)  
11.2.7. Daivavyapashraya Chikitsa (Spiritual therapy)  
11.2.7.1. Incantation (Mantra)  
11.2.7.2. Mani (precious Gems)  
11.2.7.3. Mangala (Propitiatory rites)  
11.2.7.4. Bali (Auspicious offerings)  
11.2.7.5. Upahar (Gift)  
11.2.7.6. Homa (Sacrifices)  
11.2.7.7. Niyama (Religious observance)  
11.2.7.8. Prayashchitta (Ceremonial penitence)  
11.2.7.9. Upavasa (Fasts)  
11.2.7.10. Swastiyayana (Prostrations)  
11.2.7.11. Pranipata-gamana (Pilgrimages)  
11.2.8. Satwavajaya Chikitsa (Psychotherapy)  
11.2.9. Rasayana and Vajikarana therapy
**BRAHMI**

1. Scientific Name 41
2. Systematic Position 41
3. Synonyms 41
4. Vernacular Names 41
5. Distribution 42
6. Description 42
6.1. Macroscopic 42
6.2. Microscopic 42
6.2.1. Leaf 42
6.2.2. Stem 42
7. Parts used 42
8. Ayurvedic Properties 43
9. Doshaghnata 43
10. Rogaghnata 43
11. Karma 43
12. Properties and action 43
13. Chemical Constituents 45
13.1. Major 45
13.2. Others 45
14. Quantitative Standards 47
15. Common adulterant 47
16. Medicinal properties and uses 47
17. Ethical Preparations 47
18. Pharmacology 47
19. Medicinal Values 48
20. Propagation and cultivation 49
21. Chemistry 49
22. Safety Aspects 49
23. Doses 49
24. Major nutrients of Brahmi 50
25. Trade and Commerce 50
1. Materials and Methods 51
1.1. Selection of drugs 51
1.1.1. Preparation of Medicine 51
1.1.2. Preparation of rice powder 51
1.2. Selection of patients 51
1.2.1. Selection Criteria 52
1.2.1.1. Subjective Criteria 52
1.2.1.2. Objective Criteria 52
1.2.2. Exclusion Criteria 52
1.2.3. Treatment group 52
1.2.3.1. Group-A 53
1.2.3.2. Group-B 53
1.2.3.3. Group-C 53
1.2.3.4. Group-D 53
1.3. Assessment of result 54
1.3.1. Subjective parameters 54
1.3.2. Objective parameters 54
1.4. Method of Semen analysis 54
1.4.1. Method of Collection 54
1.4.2. Macroscopic examination 54
1.4.2.1. Volume 54
1.4.2.2. Appearance 55
1.4.2.3. Reaction 55
1.4.3. Microscopic examination 55
1.4.3.1. Motility of Spermatozoa 55
1.4.3.2. Sperm Count 55
1.4.3.3. Sperm morphology 55
1.5. Statistical analysis 56
2. Observation and Results 57
2.1. Various status of the patients 57
2.1.1. Patients with different eligible age group 57
2.1.2. Patients with different religions 58
2.1.3. Occupations of the patients having Spermatorrhea 59
2.1.4. Income groups of Patients having Spermatorrhea
2.1.5. Pattern of Habitat
2.1.6. Diet habits and prefer rasas of Patients having Spermatorrhea
2.1.7. Prakriti of the Patients having Spermatorrhea
2.2. Observations of Symptoms of Spermatorrhea

3. Results

3.1. Subjective parameters

3.1.1. Results on Symptomatic relief of treatment Group A
3.1.2. Results on symptomatic relief of Treatment Group-B
3.1.3. Results on symptomatic relief of Treatment Group-C
3.1.4. Results on symptomatic relief of treatment Group - D

3.2. Objective Parameters

3.2.1. Results from objective parameters of treatment Group - A
3.2.2. Results from objective parameters of treatment Group - B
3.2.3. Results from objective parameters of treatment Group - C
3.2.4. Results from objective parameters of treatment Group - D.

4. Results from objective parameters of treatment
Group A, B, C and D

4.1. EFFECT OF JATAMANSI ON SERUM TESTOSTERONE LEVEL
4.2. EFFECT OF BRAHMI ON SERUM TESTOSTERONE LEVEL
4.3. EFFECT OF JATAMANSI AND BRAHMI ON SERUM TESTOSTERONE LEVEL
4.4. EFFECT OF RICE POWDER (PLACEBO) ON SERUM TESTOSTERONE LEVEL
4.5. EFFECT OF JATAMANSI ON THE VOLUME OF SEMEN
4.6. EFFECT OF BRAHMI ON THE VOLUME OF SEMEN
4.7. EFFECT OF JATAMANSI AND BRAHMI ON THE VOLUME OF SEMEN
4.8. EFFECT OF RICE POWDER (PLACEBO) ON THE VOLUME OF SEMEN
4.9. EFFECT OF JATAMANSI ON SPERM COUNT
4.10. EFFECT OF BRAHMI ON SPERM COUNT
4.11. EFFECT OF JATAMANSI AND BRAHMI ON SPERM COUNT
4.12. EFFECT OF RICE POWDER (PLACEBO) ON SPERM COUNT
4.13. EFFECT OF JATAMANSI ON SPERM MORPHOLOGY
4.14. EFFECT OF BRAHMI ON SPERM MORPHOLOGY
4.15. EFFECT OF JATAMANSI AND BRAHMI ON SPERM MORPHOLOGY 96
4.16. EFFECT OF RICE POWDER (PLACEBO) ON SPERM MORPHOLOGY 97
4.17. EFFECT OF JATAMANSI ON SPERM MOTILITY 97
4.18. EFFECT OF BRAHMI ON SPERM MOTILITY 97
4.19. EFFECT OF JATAMANSI AND BRAHMI ON SPERM MOTILITY 97
4.20. EFFECT OF RICE POWDER (PLACEBO) ON SPERM MOTILITY 98
5. Test of Significance of Synergistic Effect 99

4 Discussion and Conclusion 100 – 116
