#### Chapter 1: Introduction  
1-32

1.1 Backdrop........................................................................................................1  
1.2 Rationality of the study.............................................................................3  
1.3 Review of Literature ...............................................................................6  
1.4 Objectives of the Study..........................................................................25  
1.5 Data and its source................................................................................26  
1.6 Methodology..........................................................................................29  
1.7 Limitations of the Study.......................................................................31  
1.8 Chapter Planning..................................................................................32

#### Chapter 2: Conceptual discourse regarding equity issue and  
Investment analysis  
33-66

2.1 Introduction...............................................................................................33  
2.2 Sources of fund available to corporate entity ......................................34  
2.3 Fundamental Analysis: An overview ..................................................36  
  2.3.1 Framework for fundamental analysis........................................37  
  2.3.2 Intrinsic value..............................................................................40  
2.4 Technical Analysis: An overview............................................................41  
  2.4.1 The Dow Theory.........................................................................42  
  2.4.2 Methods of technical analysis.....................................................43  
2.5 Market efficiency: The Basics ...............................................................45  
  2.5.1 What leads to market efficiency?................................................47  
  2.5.2 Different forms of market efficiency............................................48  
2.6 Efficient Market Hypothesis: An introduction.....................................49  
  2.6.1 Different form of EMH...............................................................50  
  2.6.2 Observations about perfectly Efficient Market...........................53  
2.7 Behavioural Finance: The Concepts ....................................................55  
2.8 Underpricing of IPO: Theories...............................................................56  
  2.8.1 Theories explaining underpricing in the short-run.......................57  
  2.8.2 The Asymmetric information model............................................58  
  2.8.3 Institutional explanation...............................................................61  
  2.8.4 Ownership and Control explanation.........................................62
2.8.5 Behavioural explanation ........................................................62
2.9 Underperformance of IPO ..........................................................63
2.10 The Hot-issue market phenomenon .............................................65

Chapter 3: Genesis and Development of IPO 67-85

3.1 The Beginning ................................................................................67
3.2 Historical perspective of pre-reform era of Indian capital market ........................................................................68
3.3 Capital market reforms in India: An outline ........................................71
3.4 The Indian equity market in recent times ..........................................75
3.5 Initial Public Offering (IPO) - An overview .......................................79
   3.5.1 The rationale behind public offering .........................................81
   3.5.2 Challenges of going public ....................................................82

Chapter 4: Issue management: Discussion on SEBI Rules and Regulations 86-130

4.1 Prologue .............................................................................................86
4.2 Philosophy of Regulation in India .....................................................86
4.3 The placement of Issue: A brief discussion .......................................88
4.4 Rules governing issue of Capital in Indian Market ...........................90
4.5 Eligibility criteria for public issue .....................................................93
4.6 Fast Track Issue (FTI): The rules and guidelines ..............................98
4.7 Some relevant factors involved in IPO issues ......................................104
   4.7.1 Intermediaries and their role in the Issue Process ..................104
   4.7.2 Categories of Investors in new issue ......................................111
4.8 Pricing in public issue ........................................................................116
   4.8.1 Book building methodology: An Overview ...........................118
   4.8.2 Regulatory Guidelines of Book building in India ..................121
4.9 Recent development in IPO issue: A brief discussion .....................125
   4.9.1 Green Shoe option ................................................................125
   4.9.2 IPO Grading ...........................................................................125
   4.9.3 Eligibility criteria for listing at NSE ......................................126
   4.9.4 Role of SEBI in an Issue ........................................................128

Chapter 5: International Scenario of IPO 131-149

5.1 Milieu .................................................................................................131
5.2 International scenario of IPO underpricing ........................................131
5.3 International scenario of long-run Underperformance of IPO .................134
5.4 International IPO activity scenario ....................................................135
5.5 Contribution of BRIC nations in the IPO market: - An overview .........138
5.6 IPO activity of some select countries ................................................141
Chapter 6: Indian scenario of IPO market

6.1 Milieu

6.2 Indian IPO market Activity

6.3 Some important features of Indian IPO market

6.4 Foreign institutional Investors (FIIs) in Indian Capital market: An overview

6.5 Contribution of Individual Retail investors and FIIs

In some select IPO companies: Case study

Chapter 7: Short-run and long-run performance analysis

7.1 Prologue

7.2 Discussion about the models applied

7.2.1 Market Adjusted Abnormal Return (MAAR) model

7.2.2 Market Adjusted Excess Return (MAER) model

7.2.3 Market Model Abnormal Return (MMAR) model

7.2.a Cumulative Abnormal Return (CAR) method

7.2.b Buy and Hold Abnormal Return (BHAR) method

7.2.4 Methods of wealth relative

7.2.5 Non-parametric binomial test

7.2.6 Cross sectional multiple regression analysis

7.3 Testing of various abnormal return models and their Statistical significance

7.4 A brief relook of data and its sources

7.5 Evaluating the short-run performance of IPOs

7.5.1 Short-run performance of IPOs using MAAR model

7.5.2 Short-run performance of IPOs using MAER model

7.5.3 Short-run performance of IPOs using MMAR model

7.5.4 Regression results analysis for the short-run

7.6 Evaluating the long-run performance of IPOs

7.6.1 Long-run performance of IPOs using MAER Model

7.6.2 Long-run performance of IPOs using MMAR Model

7.6.3 Long-run performance of IPOs using BHAR method

7.6.3.1 Long-run BHAR method using MAER model

7.6.3.2 Long-run BHAR method using MMAR model

7.6.4 Long-run performance of IPOs using Wealth relative

7.7 Review of the chapter
Chapter 8: Summary and Conclusion

8.1 Prologue

8.2 Summary of the study

8.3 Implications for the Investors

8.4 Implications for the Policy makers

8.5 Further scope of Research

Bibliography

Appendix I: Details of selected companies profile

Appendix II: The IPO companies which went public during 1999-2007 at NSE [Excluding FPOs and OFSs]

Appendix III: Computed year wise Alpha, beta values of the selected IPO companies

Appendix IV: Multiple regression inputs

Appendix V: Long-run IPO performance using daily return Under MAER model (company-wise)

Appendix VI: Long-run IPO performance using daily return Under MMAR model (company-wise)

Appendix VII: Long-run IPO performance using monthly return Under MAER model (company-wise)

Appendix VIII: Long-run IPO performance using monthly return Under MMAR model (company-wise)

Appendix IX: Long-run IPO performance using BHAR methodology Under MAER model (company-wise)

Appendix X: Long-run IPO performance using BHAR methodology Under MMAR model (company-wise)
