ACKNOWLEDGEMENT ii

CONTENTS v

LIST OF MAPS, DIAGRAMS AND PHOTOGRAPHS viii

GLOSSARY x

INTRODUCTION; Objectives; Methodology; 1
Methods of collection of secondary information/data, Basis of sampling of villages, Methods of data collection from sample villages, Landuse survey, Cartographic methods; References

CHAPTER-I

THE AREA; Location; Physical Environment: Geology, Physiography, Drainage, Climate, Soil; References 21

CHAPTER-II

PEOPLE AND SOCIO-CULTURAL ENVIRONMENT;
Population Growth; Density; Sex Ratio; Literacy; Urbanisation; Industries; Immigrant Refugee Population; Settlement; References 37

CHAPTER-III

CHANGING AGRO-ECONOMY; General Landuse;
Crop Landuse; Agricultural Practices; Cropping pattern, Area under irrigation, Fertiliser, insecticides and pesticides, Implements; Infrastructure: Irrigation, Availability of fertiliser, insecticide and pesticide, Transport, Market, Cold storage, Activities of the Government agencies, Agricultural Department and different programmes; Agricultural Landholding; Pressure of Population on Agricultural Land; Dependency on Agriculture; References 56
A STUDY OF THE SAMPLE VILLAGES

SECTION-I URBAN FRINGE VILLAGES;
Location; Population; General Landuse;
Crop Landuse; Agricultural Practices: Cropping pattern (General observation), Cropping pattern in kharif season, Cropping pattern in the rabi season, High yielding variety of paddy, Area under irrigation, Use of fertiliser and insecticide, Possession of implements and use of improved implements; Infrastructure: Irrigation, Transport, Markets; Agricultural Land-holding; Pressure of Population on Agricultural Land; Dependency on Agriculture; Attitude of Farmers towards Agriculture

SECTION-II TRANSITION VILLAGES; Location; Population; General Landuse; Crop Landuse; Agricultural Practices: Cropping pattern (General observation), Cropping pattern in the kharif season, Cropping pattern in the rabi season, High yielding variety of paddy, Area under irrigation, Use of fertiliser and insecticide, Possession of implements and use of improved implements; Infrastructure: Irrigation, Transport, Markets; Agricultural Land-holding; Pressure of Population on Agricultural Land; Dependency on Agriculture; Attitude of Farmers towards Agriculture

SECTION-III DISTANT VILLAGES; Location; Population; General Landuse; Crop Landuse; Agricultural Practices: Cropping pattern (General observation), Cropping pattern in the kharif season, Cropping pattern in the rabi season, High yielding variety of paddy, Area under irrigation, Use of fertiliser and insecticide, Possession of implements and use of improved implements; Infrastructure: Irrigation, Transport, Markets; Agricultural Land-holding; Pressure of population on Agricultural Land; Dependency on Agriculture; Attitude of Farmers towards Agriculture

SECTION-IV LEVEL OF AGRICULTURAL DEVELOPMENT;
