Table 3.16. Distribution of subjects in Chavara Grama Panchayath based on Sex

Table 3.17. Distribution of subjects in Chavara Grama Panchayath based on Educational Qualification

Table 3.18. Distribution of subjects in Chavara Grama Panchayath based on Occupation

Table 3.19. Distribution of subjects in Chavara Grama Panchayath based on Monthly Income in Rupees

Table 3.20. Distribution of subjects in Chavara Grama Panchayath based on Type of family

Table 3.21. Distribution of subjects in Chavara Grama Panchayath based on Marital Status

Table 3.22. Distribution of subjects in Chavara Grama Panchayath based on Family Relationship

Table 3.23 Study process in various stages in Alappad Grama Panchayath

Table 4.1 Means, Standard Deviations and ‘t’ values obtained by the people of Alappad Grama Panchayath and Chavara Grama Panchayath in Post Traumatic Stress Disorders (PTSD) and its sub variables immediately after tsunami

Table 4.2 Means, Standard Deviations and ‘t’ values obtained by the people of Alappad Grama Panchayath and Chavara Grama Panchayath in Mental Disorders associated with Primary Health Condition immediately after tsunami

Table 4.3 Means, Standard Deviations and ‘t’ values obtained by the people of Alappad Grama Panchayath and Chavara Grama Panchayath in Disability immediately after tsunami

Table 4.4 Means, Standard Deviations and ‘t’ values obtained by the people of Alappad Grama Panchayath and Chavara Grama Panchayath in Maladjustment immediately after tsunami

Table 4.5 Means, Standard Deviations and ‘t’ values obtained by the people of Alappad Grama Panchayath and Chavara Grama Panchayath in Quality of Community Life immediately after tsunami
Table 4.6 Summary of Repeated measures ANOVA scores in PTSD of Alappad Panchayath measured in three different Phases 154

Table 4.7 Least Square Deviation test for pair wise comparison of the scores in PTSD of survivors in Alappad Panchayath measured in three different Phases 154

Table 4.8 Summary of Repeated Measures ANOVA scores in Avoidance of Alappad Panchayath measured in three different Phases 155

Table 4.9 Least Square Deviation test for pair wise comparison of the scores in Avoidance of survivors in Alappad Panchayath measured in three different Phases 156

Table 4.10 Summary of Repeated Measures ANOVA scores in Intrusion of survivors in Alappad Panchayath measured in three different Phases 157

Table 4.11 Least Square Deviation test for pair wise comparison of the scores in Intrusion of survivors in Alappad Panchayath measured in three different Phases 158

Table 4.12 Summary of Repeated Measures ANOVA scores in Hyper arousal of survivors in Alappad Panchayath measured in three different Phases 159

Table 4.13 Least Square Deviation test for pair wise comparison of the scores in Hyper arousal of survivors in Alappad Panchayath measured in three different Phases 160

Table 4.14 Summary of Repeated Measures ANOVA scores in Mental Disorders associated with Primary Health condition of survivors in Alappad Panchayath measured in three different Phases 161

Table 4.15 Least Square Deviation test for pair wise comparison of the scores in Mental Disorders associated with Primary Health condition of survivors in Alappad Panchayath measured in three different Phases 162

Table 4.16 Summary of Repeated Measures ANOVA scores in Disability of survivors in Alappad Panchayath measured in three different Phases 163

Table 4.17 Least Square Deviation test for pair wise comparison of the scores in Disability of survivors in Alappad Panchayath measured in three different Phases 164
Table 4.18  Summary of Repeated Measures ANOVA scores in Maladjustment of survivors in Alappad Panchayath measured in three different Phases  

Table 4.19  Least Square Deviation test for pair wise comparison of the scores in Maladjustment of survivors in Alappad Panchayath measured in three Phases  

Table 4.20  Summary of Repeated Measures ANOVA scores in Anxiety of survivors in Alappad Panchayath measured in three different Phases  

Table 4.21  Least Square Deviation test for pair wise comparison of the scores in Anxiety of survivors in Alappad Panchayath measured in three different Phases  

Table 4.22  Summary of Repeated Measures ANOVA scores in Depression of survivors in Alappad Panchayath measured in three different Phases  

Table 4.23  Least Square Deviation test for pair wise comparison of the scores in Depression of survivors in Alappad Panchayath measured in three different Phases  

Table 4.24  Summary of Repeated Measures ANOVA scores in Mania of survivors in Alappad Panchayath measured in three different Phases  

Table 4.25  Least Square Deviation test for pair wise comparison of the scores in Mania of survivors in Alappad Panchayath measured in three different Phases  

Table 4.26  Summary of Repeated Measures ANOVA scores in Inferiority of survivors in Alappad Panchayath measured in three different Phases  

Table 4.27  Least Square Deviation test for pair wise comparison of the scores in Inferiority of survivors in Alappad Panchayath measured in three different Phases  

Table 4.28  Summary of Repeated Measures ANOVA scores in Paranoia of survivors in Alappad Panchayath measured in three different Phases  

Table 4.29  Least Square Deviation test for pair wise comparison of the scores in Paranoia of survivors in Alappad Panchayath measured in three different Phase
Table 4.30. Summary of Repeated Measures ANOVA scores in Quality of Community Life (QCL) of survivors in Alappad Panchayath measured in three different Phases

Table 4.31. Least Square Deviation test for pair wise comparison of the scores in Quality of Community Life (QCL) of survivors in Alappad Panchayath measured in three different Phases

Table 4.32. Summary of One way ANOVA on Psycho social Status scores with respect to Age of the survivors in Alappad Grama Panchayath

Table 4.33. Mean values & Standard Deviations and ‘t’ value of scores of Psycho social Status with respect to Gender of the survivors in Alappad Panchayath immediately after tsunami

Table 4.34. Summary of One way ANOVA scores of Psycho social Status variables with respect to Marital Status of the survivors in Alappad Grama Panchayath immediately after tsunami.

Table 4.35. Summary of One way ANOVA scores of Psycho social Status variables with respect to Educational Status of the survivors in Alappad Grama Panchayath immediately after tsunami.

Table 4.36. Summary of One Way ANOVA scores of Psycho social Status variables with respect to Occupation of the survivors in Alappad Grama Panchayath immediately after tsunami.

Table 4.37. Summary of One Way ANOVA scores of Psycho social Status variables with respect to Income of the survivors in Alappad Grama Panchayath immediately after tsunami.

Table 4.38. Least Square Deviation test for pair wise comparison of scores in Maladjustment with respect to Income of the survivors immediately after tsunami

Table 4.39. Mean values & Standard Deviations scores of Maladjustment in Alappad Panchayath with respect to Income of the survivors immediately after tsunami

Table 4.40. Least Square Deviation test for pair wise comparison of scores in Quality of Community Life with respect to Income of the survivors immediately after tsunami
Table 4.41. Mean values & Standard Deviations scores of Quality of Community Life in Alappad Panchayath with respect to Income of the survivors immediately after tsunami

Table 4.42. Summary of One way ANOVA scores of Psycho social Status variables with respect to Family Relationships of the survivors in Alappad Grama Panchayath immediately after tsunami.

Table 4.43. Least Square Deviation test for pair wise comparison of scores in Mental Disorders associated with Primary Health Condition with respect to Family Relationships of the survivors in Alappad Panchayath immediately after tsunami.

Table 4.44. Mean values & Standard Deviations scores of Mental Disorders with respect to Family Relationships of the survivors in Alappad Panchayath immediately after tsunami.

Table 4.45. Summary of One way ANOVA scores of Psycho social Status variables with respect to Type of Family of the survivors in Alappad Grama Panchayath immediately after tsunami.

Table 4.46. Least Square Deviation test for pair wise comparison of scores in Maladjustment with respect to Type of Family of the survivors in Alappad Panchayath immediately after tsunami.

Table 4.47. Mean values & Standard Deviations scores of Maladjustment with respect to Type of Family of the survivors in Alappad Panchayath immediately after tsunami.

Table 4.48. Mean values, Standard Deviations and ‘t’ value obtained in scores of Psycho social Status of survivors of Alappad Panchayath immediately after tsunami with respect to Life Loss.

Table 4.49. Mean values, Standard Deviations and ‘t’ value obtained in scores of Psycho social Status of survivors of Alappad Panchayath immediately after tsunami with respect to Livelihood Loss.

Table 4.50. Mean values, Standard Deviations and ‘t’ value obtained in scores of Psycho social Status of survivors of Alappad Panchayath immediately after tsunami with respect to Property Loss.
Table 4.51. Summary of One way ANOVA of Psycho social Status variables score with respect to Displacement Status of the survivors in Alappad Grama Panchayath immediately after tsunami.

Table 4.52. Least Square Deviation test score for pair wise comparison of scores in Disability, Maladjustment and Quality of Community Life with respect to Displacement Status of the survivors in Alappad Panchayath immediately after tsunami.

Table 4.53. Mean values & Standard Deviations of scores of Psycho social Status in Alappad Panchayath with respect to Displacement Status of survivors in Alappad Panchayath immediately after tsunami.
