ACKNOWLEDGEMENT

Author offers his most sincere gratitude to his supervisor 

Dr. A.K. Pandey, Reader, Chemistry Department, Satish Chandra College, Ballia, who can not be forgotten for his surmountable enthusiasm, noble supervision, excellent guidance and constructive criticism during the course of present investigation.

The author is highly thankful to Principal and Head of Chemistry Department of the college for his kindness to help and forward the work in the form of present thesis. The teaching, technical and library staff of the college has always been helpful and deserves a deep sense of gratitude to the author.

The author is highly indebted to her husband Dr. Chet Prakash Pandey, Chemistry Department, P.B.P.G. College, Pratapgarh city, Pratapgarh, and eminent academician, whose sharpness in observation, keen interest, perpetual inspection and everywishing help has always assisted.

Author owes a lot to the organisers of national and international conferences, Seminars and workshops of journals and other media whose academic radiations could bring more glamour and better quality in the research work. The author is highly indebted to the librarians of B.H.U. and other research centres who were generous enough to allow her for the consultation of literature. I am much indebted to the pollution control Board and Pollution Research Centres for their academic and technical advice and help whenever required.

In the impotency of words to express the real sense of gratitude I acknowledge the everlasting and continued affection and
help provided by my father in law Dr. C.B. Pandey and my mother in law Smt. S. Pandey to provide affections during the period of investigation.

In the last but not least author is extremely grateful to R.P. Mishra, Smt. K.Mishra, R.K. Shukla, Dr. K. Shukla, Anurag, Nistha, Abhishek, Ananya, Aryan, and Naina are more valuable and author provides her thanks and gratefulness to them. Executive, Elisium Pharmaceutical Ltd., Vadodara and Ananya are more valuable and author provides her thanks and gratefulness to them.
