Acknowledgments

After the research and writing is over and thesis gets ready for submission, the researches is faced with the daunting task of recollecting all the people and institution which ought to be thanked for their help and support.

I shall refrain from doing so, for my gratitude extends for beyond the limited number of people whom I could possibly thank in this space.

First of all, I pray and thank the almighty Allah, the most beneficent and merciful who endowed me with pure thoughts and enabled me to carry out the present research work devotionally, enthusiastically and dispassionately. He guided me for what was good and beneficial for me. I bow to Thee.

I deem it earnest duty to express gratitude to my learned and erudite supervisor Dr. Ramji Srivastava for his expert guidance, invaluable suggestions, keen interest and unsparring support in carrying out the present research work.
I am profoundly indebted to Dr. Saeeduzzafar, reader department of Psychology, A.M.U. Aligarh for his readiness to help me, at every step. I express my immense gratitude to this towering personality, without him the research work would not have taken the present shape.

I am also grateful to Dr. Quazi Ghaus Alam, Principal Shibli National College, Azamgarh and to my other senior colleagues particularly Dr. Zahoor Alam, Dr. Ehsanullah, Dr. Jamal Ansari, Dr. Irshad, Dr. Iqbal and Ms. Mahjabin who were a constant source of encouragement and inspiration for me throughout the period of my work.

I feel great pleasure to express my heartiest thanks to prof. Qamar Hasan, Chairman Department of Psychology, A.M.U. Aligarh for his wise counsel, expert opinion and valuable support which he has willingly extended to me particularly relating to the statistical analysis.

I am also grateful to prof. Holtgrave, Ball State University for sending me the required source materials. My thanks are also due to, the librarian Maulana Azad Library, Aligarh and N.C.E.R.T. Delhi for their kind permission to avail of the research materials at their disposal.

I have been fortunate enough to have had a group of competent and devoted students who were always willing to lend me a helping hand
while manuscript was passing from its initial to the final phase. It would become a tedious job to enumerate who could help me in this project. I would like to mention a few namely Sarvat Alam, M. Azeem, Rosy and Shabana.

I shall be failing in my duty if I forget to thank my friends, Dr. Laiq, Dr. Anisa, Prof. Sayeed, Saba, Azam and Moazzam, who could stand to the acid test of the dictum “a friend-in-need is a friend indeed” and offered their help in every possible way. Words really fail to express my feelings for their contributions in this endeavour.

Above all I must acknowledge the support of my parents, elder brothers; Shahzad, Shahab, Bhabhi; Masauda, Rubina, younger brother, Ehtesham, Danish, Sisters; Shaista, Sana and nephews Asmar, Asjad and Ziya who showered their good wishes and affections making the present work easier and smoother.

One name shall remain in my memory, though; thanks to Mr. Ozair Ahmed for word processing the manuscript skillfully and patiently.

(Javed Ahmad)
Lecturer,
Department of Psychology
Shibli National P.G. College,
Azamgarh
