1.12 The Standard Regimen and the Short Course Chemotherapy  
1.13 Monitoring and Evaluation of NTP  
1.14 Revised National Tuberculosis Control Programme  
1.15 An Analysis of the RNTCP  
1.16 Recent Social Research Studies on Tuberculosis  
1.17 Need for the Study  

**Chapter II**  
**The Design of the Study**  

2.1 The Research Design: A Brief Overview  
2.2 Research Questions  
2.3 Objectives of the Study  
2.4 Methodology of the Study  
2.4.1 Selection of the Study Area  
2.4.2 Selection of the Study Population  
2.4.3 Tools of Data Collection  
2.5 Analysis of the Data  
2.6 Limitations of the Study  

*Results and Discussion*
**Chapter III**  
**Profile of the Study Areas and Population**  

### 3.1 Profile of Delhi Slums

- **3.1.1 Growth and Types of Slums in Delhi**

### 3.2 Profile of the Study Areas: Govindpuri and Wazirpur J. J. Colony

- **3.2.1 Origin and Spread of the Slum Areas**
- **3.2.2 Housing Pattern**
- **3.2.3 Basic Services**
- **3.2.4 Market Facilities**
- **3.2.5 Educational Institutions**
- **3.2.6 Health Services**
- **3.2.7 Tuberculosis Treatment Services in Delhi**
- **3.2.8 Tuberculosis Treatment Services in the Study Areas**

### 3.3 Profile of the Study Population: Patients and Non-Patients

- **3.3.1 Religion**
- **3.3.2 Place of Migration**
- **3.3.3 Reason of Migration**
- **3.3.4 Duration of Stay in the Slum**
- **3.3.5 Age-Group Distribution**
- **3.3.6 Educational and Occupational Status of the Study Population**
- **3.3.7 Household Income**
- **3.3.8 Family Structure**
- **3.3.8.1 Family Size**
- **3.3.9 Links with Village**

### 3.4 Social Environment of Govindpuri and Wazirpur Slums

**Chapter IV**  
**People's Awareness and Patients Perception**  

### 4.1 Awareness of Slum Dwellers Regarding Tuberculosis

- **4.1.1 Recognizing Tuberculosis from Symptoms**
- **4.1.2 Causative Beliefs**
- **4.1.3 Spread of Tuberculosis**
- **4.1.4 Curability of Tuberculosis**
- **4.1.5 Method, Source and Duration of Treatment**

### 4.2 Perception of Patients about Tuberculosis

- **4.2.1 Living with Tuberculosis**
- **4.2.2 Causative Beliefs**
- **4.2.3 Curability of Tuberculosis**
- **4.2.4 Spread of Tuberculosis**
- **4.2.5 Treatment of Tuberculosis**
### Chapter V  
**Interaction of Patients with Health Providers**

- 5.1 Help-seeking Practices of the Study Population for Minor Illness
- 5.2 Seeking Relief for cough and Fever
- 5.3 Source of Diagnosis
- 5.4 Shopping for Treatment
- 5.5 Compliance and Non-compliance Behaviour of Patients
  - 5.5.1 Analysis of Factors Responsible for Non-compliance
- 5.6 Functioning of the Area Tuberculosis centres at Study Areas
- 5.7 Attitude of Patients towards the DOTS strategy
- 5.8 Provider Perspectives: Private Doctors and Public Providers
  - 5.8.1 Private Doctor: The First Source of Help
  - 5.8.2 The Public Provider
  - 5.8.3 Health Workers in the Community

### Chapter VI  
**Gender Issues in Tuberculosis and its Control Programme**

- 6.1 Gender Differences in Some Characteristics of Study Patient
  - 6.1.1 Age Distribution of Men and Women Patients
  - 6.1.2 Educational and Occupational Status
- 6.2 Beliefs Regarding the Causes and Spread of TB
- 6.3 Early Symptoms of the Disease
- 6.4 First Source of Help, source of Diagnosis and source of Referral
- 6.5 Treatment Adherence
- 6.6 Social Acceptability of Male and Female Patients
