List of Figures iii
List of Maps iv

Chapter: I

INTRODUCTION 1-33

1.1 Review of Literature
1.2 Statement of the Problem
1.3 Objectives
1.4 Research Questions
1.5 Study Area
1.6 Methodology and Data Collection
1.7 Organization of the Work
1.8 Significance of Study

References

Chapter: II

GEOMORPHIC CHARACTERISTICS 34-60

2.1 Natural Vegetation
2.2 Geology and Seismicity
2.3.1 Lithostratigraphic Units
2.4 Climate
2.4.1 Rainfall Conditions
2.4.2 Seasonal Variation of Rainfall
2.4.3 Annual Variation of Rainfall
2.5 Physiography
2.6 Slope
2.7 Drainage Basin
2.7.1 The River System
2.8 Analysis of Drainage Basin
2.8.1 Stream Order
2.8.2 Stream Length Ratio
2.8.3 Bifurcation Ratio
2.8.4 Stream Number
2.8.5 Sinuosity Index
2.8.6 Geometry of Basin Shape
2.8.7 Drainage Density

References

Chapter: III

HYDROLOGICAL CHARACTERISTICS AND CHANNEL CHANGES 61-78

3.1 Hydrological Characteristics of the Basin
3.1.1 Flow Characteristic
3.1.2 High And Low Flow Pattern
3.1.3 Daily Flow Characteristics
3.2.1 Hydrograph for the Year 1990
3.2.2 Hydrograph for the Year 1998
3.2.3 Hydrograph for the Year 2002
3.2.4 Hydrograph for the Year 2008
3.3.1 Seasonal Variation of Discharge
3.3.2 Annual Variation of Discharge
3.4 River Channel Change
3.5 History of Channel Formation
3.6 Factors Affecting Channel Changes

References

Chapter: IV

FLOOD SCENARIO IN PRE AND POST PROJECT PERIOD 79-100

4.1 Flood Scenario of Dikrong River
4.2 Flood Hazards of Dikrong Basin
4.3 Flood of Dikrong River in the Pre-Project Period
4.4 Damage Assessment in the Study Area (1991-2001)
4.5 Flood Scenario in Post-Project Period (2002-2008)
4.6 Flood Frequency Analysis
4.6.1 Log Pearson’s Type III Distribution

References

Chapter: V

HUMAN RESPONSE TO FLOOD PROBLEMS 101-121

5.1 Socio-Economic Impact of Flood
5.2 Case Study of Some Selected Flood Affected Villages
5.3 Human Adjustment to Riverine Environment
5.4 Response to Flood through Land Use
5.5 Resettlement and Rehabilitation Programme in Flood Affected Area
5.6 Rehabilitation Programmes in Flood and Erosion Affected People of Dikrong Basin

5.7 Flood Plain Management

5.7.1 Structural Measures

5.7.2 Non-Structural Measures

5.8 Impact of Flood on Displacement of Rural Settlement

References

Chapter: VI

SUMMARY AND CONCLUSION 122-134

6.1 Major Findings of the Present Research

6.2 Synthesis

6.3 Suggestions
