ACKNOWLEDGEMENT

My endless gratitude goes to Lord Almighty for all the blessings he has showered onto me, which has enabled me to write this note in my research work. During the period of my research, as in the rest of my life, I have been blessed by Almighty with some extraordinary people who have spun a web of support around me. Words can never be enough in expressing how grateful I am to those incredible people in my life who made this thesis possible. Still I am making an attempt to thank them for making my time during my research so memorable that I will treasure it for my entire life.

I am deeply indebted to my Supervisor Dr. D. K. Jain for his understanding, encouragement and personal attention which have provided good and smooth basis for my Ph.D. work. I have been extremely lucky to have a supervisor who cared so much about my work, and who responded to my questions and queries so promptly. Without his valuable help and guidance, such work would have remained a distant dream for me.

I gratefully acknowledge the help and support extended to me by my research Co-Supervisor, Professor Renu Jain, Head, School of Mathematics and Allied Sciences, Jiwaji University, M.P. Each meeting with her added invaluable aspects to the implementation and broadened my perspective. She has guided me with her invaluable suggestions, lightened up the way in my darkest times and encouraged me a lot in the academic life. From her I have learned to think
critically, to select problems, to solve them and to present their solutions. I could not have imagined having a better Supervisor and mentor for my Ph.D study. Also I am very much thankful to all of her family members, especially her husband, Shri S. K. Jain and daughter Ms. Sakshi Jain.

I take this opportunity to sincerely express my deep sense of gratitude to Prof. O.P. Misra, School of Mathematics and Allied Sciences, Jiwaji University, Gwalior (M.P.), Prof. R.K. Johar, Retd.Professor, K.R.G. College, Gwalior and Prof. J. Dhar, ABV-IIITM, Gwalior (M.P.) for their kind concern and continuous encouragement during my research work.

I will be failing in my duty if I don’t acknowledge sincerest thanks to all faculty members and co-researchers Dr. Farooq Ahmed Sheikh, Dr. B.D. Gupta, Dr. Satendra Kumar Tripathi, Ms. W. Premeshwori, Dr. Chatrapal Singh, Mrs. Preeti Tripathi, Mr. Manzoor, Mr. Teekam, Ms. Manisha, and Ms. Divya for their cooperation, valuable suggestions and support. I heartily thank Mr. Ashish Johari, Mr. Ashok Dhaketa, Mrs. Rajni, Mrs. Shaheen, Mr. Kamlesh, Mr. Som Singh, all from School of Mathematics and Allied Sciences for their co-operation and assistance in completing the formalities of office work during my research tenure.

I find no words to express my deep sense of gratitude to all members of my extended family whose unfailing devotion has been a constant source of inspiration for me all through my life. I would like to extend my heartfelt regards and thanks to my dear parents Mr. Yashwant singh Thakur and Mrs. Ramvati
Thakur, my parents in law Mrs. Phoolwati and Mr. Amar Singh, my brothers Mr. Amit, Mr. Kuldeep Thakur and sisters Ms. Babita, Ms. Archana, Ms. Alpana, Ms. Dolly, my brothers-in-law Mr. Inder Singh and Mr. Devendra Singh, my bhabhi’s Mrs. Anjana, Mrs. Laxmi, Mrs. Seema and all family members for their sustaining encouragement throughout my work.

At this juncture, I am especially grateful to my husband Dr. Kishan Singh Yadav and daughter Ira Singh for their appreciation, encouragement, love and moral support. They stood behind me through all thick and thin.

Finally, from my heart-of-hearts I thank all those who made it possible for me to reach this last stage of my endeavor. Thank You.

(Anjali Thakur)
