ACKNOWLEDGEMENT

I would like to express my profound and sincere gratitude to my supervisor Dr. Pubali Dhar, Assistant Professor, Department of Home Science (Food and Nutrition Division), University of Calcutta for her constant guidance, untiring help, motivation and encouragement throughout my thesis work tenure. I am blessed to have her by my side as a teacher, philosopher and guide whenever I needed her at the times of extreme hardships.

My heartiest gratitude goes to Dr. Santinath Ghosh, Associate Professor, Department of Chemical Technology, University of Calcutta who has been the inspiration behind conceiving this idea of work.

I am grateful to Prof. Dipak Kumar Bhattacharyya, Adjunct Professor, School of Community Science & Technology, Bengal Engineering & Science University, Shibpur, for his valuable suggestions and constant encouragement.

I wish to express my sincere thanks to Dr. Mahua Ghosh, Assistant Professor, Department of Chemical Technology, University of Calcutta and Dr. Anirban Siddhanta, Associate Professor, Department of Biochemistry, University of Calcutta who have allowed using their research laboratories whenever required.
It is a pleasure to convey my gratitude to Prof. Santa Dutta (De), Dean, Faculty of Fine Arts, Music and Home Science, University of Calcutta, for her continuous support and encouragement.

This work would not be possible without the help and support of West Bengal Forest Department and my honey supplier Mr. Arup Manna who have provided me with authentic honey samples to proceed the research work.

My special thanks go to Sanjuktadi for helping me to carry out the Chromatography work.

I express my heartfelt indebtedness to all the teachers and non-teaching staffs of the Department of Home Science, University of Calcutta for giving me all the help and support to carry out the research work. I also owe to University Grants Commission (UGC), for providing financial assistance to complete the research work.

I would like to mention the love and support of all my fellow labmates specially Ratnadi, Sayani, Tanmoy, Debjyoti, Aparajita, Sridipa and Roshni who have been source of inspiration during the entire course of research work.

Finally, I would like to thank my parents and brother for being my constant support system, my husband for being by my side and giving me
emotional support through various ups and downs and my in laws for giving me all the comforts for completion of this thesis. My little daughter is also an inspiration and a precious diamond in my life--- “what I do, I do it for you”.
