ACKNOWLEDGEMENTS

This thesis has been kept on track and been seen through to completion with the support and encouragement of numerous people.

Firstly, I wish to express my sincere appreciation and deepest gratitude to my thesis supervisor Prof. Nripendranath Mandal, Division of Molecular Medicine, Bose Institute, Kolkata for his valuable guidance, amazing endurance, great knowledge and moral support throughout the research period. I would like to thank him for encouraging my research and for allowing me to grow as a research scientist.

I am very much gratified to the Director, Bose Institute for providing me a scope and infrastructure to carry out my study in this extremely renowned & globally highly praised Institute. Alongside, I thank the Ministry of Earth Science (MoES), Govt. of India, for providing fellowship during a period of this work.

I would also like to express my heartfelt gratitude to all of my lab members including Santanu Da, Bibha Da, Rhitajit Da, Nikhil, Dipankar, Sourav, Abhishek Da, Debabrata, Tapasree, Vivek and Anil. I also thank most genuinely Ranjit da and Pradip da for their sincere technical help. My greatly indebted to Usri and Ajoy for their valuable advice and friendly help. Their extensive and illuminating discussions around my work and interesting explorations have been very helpful for this study.

I gratefully acknowledge my friends, especially Nirmath, Arnab, Modinur, Jafor and Rudra for their understanding and personal attention which have provided good and smooth basis for my work. Alongside, it's my pleasure to extend my acknowledgements towards all my friends who in course have turned to be more than mere accomplices, for their constant moral support and for making my working days memorable and enjoyable.

Last but not the least, my deepest gratitude goes to my beloved Father, my Mother and Elder Brother whose unflagging love and encouragement this work would have never been finished.

Words are short to express my deep sense of gratitude towards my Wife, Daughter and Nephew who has been always a constant source of inspiration and encouragement.

Sourav Dutta
