ACKNOWLEDGEMENTS

First and foremost, I would like to express my heartfelt gratitude to Almighty, my parents and family for their sacrifices in shaping a meaningful life. It is to honor their love that I dedicate this thesis to them.

It is my gratitude to the pre-eminent research supervisors Prof. Dr. Sandip Vijay and Dr. S C Gupta for their generous support, sustained interest, intellectual guidance, comments and ideas, without which it would not have been possible to accomplish and conclude this research work. Their standards were the best in the field and their insights were always correct.

I also thank to Dr. KK Raina Vice chancellor DIT University, Dr. M. Singh, Scientist F DEAL Dehradun, and Mr. AK Shukla Scientist G (Rtd) DEAL Dehradun, Mr. Dharmendra Scientist C DEAL Dehradun, Dr. R P S Gangwar Head ECE GB Pant Nagar whose faith and confidence made me surmount the occasional hurdles. They always encouraged me to stay focused on my research and persevere with my ideas.

My sincere acknowledgement is to Dr. Dharmendra singh Prof. IIT Roorkee, for his motivation and support which acted as a catalyst in my research work.

My heartfelt thanks to my friends Mr. V S Chauhan, Ms Prachi Gupta, Ms. Prashansha, Dr. pooja .Their ideas, insights, suggestions, questions, and enthusiasm were great help in stimulating my thoughts and in bringing this research forward.

Finally, I would like to express my sincere thanks to my father and my husband. Their unconditional love and emotional support has been the greatest motivation for me to keep progressing during these years, specially, I thank to my loving husband V S Chauhan, my lovely son Ritwick chauhan and my lovely daughters Agrima singh chauhan.

Brajlata Chauhan
