16. Data and Results of Test of Significance of the Difference Between the Mean Gain Scores of LD Students in Experimental and Control Groups

17. Data and Results of Test of Significance of the Difference Between the Mean Gain Scores of ND Students in Experimental Groups (PLM, SLM, GII) and Control Group (LDM)

18. Summary of Analysis of Variance of the Pretest and Posttest Scores of LD Students in Experimental and Control Groups

19. Summary of Analysis of Covariance for the Pretest and Posttest Scores in Biology of LD Students in Experimental Groups (PLM, SLM, GII) and Control Group (LDM)

20. Data for Adjusted Means of Posttest Scores in Biology of LD Students in Experimental Groups (PLM, SLM, GII) and Control Group (LDM) and Results of Test of Significance

21. Comparison of Difference Among the Adjusted Means of Posttest Scores in Biology of LD Students in the Experimental Groups (PLM, SLM, GII) and Results of Test of Significance

22. Summary of Analysis of Variance of the Pretest and Posttest Scores of Pupils in Experimental and Control groups of ND Students

23. Summary of Analysis of Covariance for the Pretest and Posttest scores in Biology of ND students in Experimental Groups (PLM, SLM, GII) and Control Group (LDM)

24. Data for Adjusted Means of Posttest Scores in Biology of ND Students in Experimental Groups (PLM, SLM, GII) and Control Group (LDM) and Results of Test of Significance

25. Comparison of Difference Among the Adjusted Means of Posttest Scores in Biology of ND Students in the Experimental Groups (PLM, SLM, GII) and Results of Test of Significance

26. Data and Results of Tests of Significance for Difference in the Adjusted Posttest Means of LD and ND Students
27. Data and Progress Made by LD Students and ND Students Studied Biology under Self-Instructional Strategies, Modern Instructional Strategy and Traditional Method

28. Analysis of Variance of the Pretest and Posttest Scores of LD students under the Objective: Knowledge of the Achievement Test in Biology

29. Summary of Analysis of Covariance for the Pretest and Posttest scores in Biology of LD students in Experimental groups (PLM, SLM, GII) and Control group (LDM) Under the Objective: Knowledge

30. Calculation of Adjusted means for the Pretest and Posttest Scores of LD Students in the Experimental and Control groups for the Objective: Knowledge

31. Analysis of Variance of the Pretest and Posttest Scores of ND students in the Objective: Knowledge of the Achievement Test in Biology

32. Summary of Analysis of Covariance for the Pretest and Posttest scores of ND students in Experimental (PLM, SLM, GII) and Control (LDM) Groups Under the Objective: Knowledge in Biology

33. Calculation of Adjusted Means for the Pretest and Posttest Scores of ND Students in the Experimental and Control Groups for the Objective: Knowledge

34. Analysis of Variance of the Pretest and Posttest Scores of LD students in Experimental Groups (PLM, SLM, GII) and Control Group (LDM) Under the Objective: Understanding

35. Summary of Analysis of Covariance for the Pretest and Posttest Scores in Biology of LD students in Experimental Groups (PLM, SLM, GII) and Control Group (LDM) under the Objective Understanding
36. Data for Adjusted Means of Posttest scores in Biology of LD students in the Experimental Groups (PLM, SLM, GII) and Control Groups for the Objective: Understanding

37. Analysis of Variance of the Pretest and Posttest Scores of ND students in Experimental and Control Groups under the Objective: Understanding of the Achievement Test in Biology.

38. Summary of Analysis of Covariance for the Pre and Posttest scores of ND Students in Experimental (PLM, SLM, GII) and Control (LDM) Groups Under the Objective, Understanding in Biology.

39. Calculation of Adjusted Means for Posttest Scores in Biology of ND students in the Experimental and Control Groups under the Objective: Understanding

40. Analysis of Variance of the Pretest and Posttest Scores of LD students under the Objective Application of the Achievement Test in Biology

41. Summary of Analysis of Covariance for the pretest and posttest scores in Biology of LD students in Experimental Groups (PLM, SLM, GII) and Control Group (LDM) under the Objective: Application

42. Calculation of Adjusted means of Posttest Scores in Biology of LD Students in Experimental Groups (PLM, SLM, GII) and Control group Under the Objective: Application

43. Analysis of Variance of the Pretest and Posttest Scores of ND students in Experimental and Control Groups under the Objective Application in the Achievement Test in Biology

44. Summary of Analysis of Covariance for the pretest and posttest scores in Biology of ND students in the Experimental Groups (PLM, SLM, GII) and Control Group (LDM) under the Objective: Application

45. Calculation of Adjusted means of Posttest Scores in Biology of ND Students in Experimental and Control groups for the Objective: Application
46. Analysis of Variance of the Pretest and Posttest Scores of LD students in Biology in the Experimental and Control Groups under the Objective: Skill

47. Summary of Analysis of Covariance for the Pre and Posttest Scores in Biology of LD students in the Experimental Groups (PLM, SLM, GII) and Control group (LDM) under the Objective: Skill

48. Calculation of Adjusted means of Posttest Scores in Biology of LD Students in the Experimental and Control groups for the Objective: Skill

49. Analysis of Variance of the Pretest and Posttest Scores of ND Students in Experimental and Control Group in the Objective: Skill in the Achievement Test in Biology

50. Summary of Analysis of Covariance for the Pretest and Posttest Scores of ND Students in Biology in the Experimental Groups (PLM, SLM, GII) and Control group (LDM) under the Objective: Skill

51. Calculation of Adjusted means of Posttest Scores in Biology of ND Students in Experimental Groups (PLM, SLM, GII) and Control group (LDM) under the Objective: Skill

52. Consolidated Results of analysis of Covariance for Pretest and Posttest scores of Pupils in the Experimental and control Groups under the Objectives- Knowledge Understandig Application and Skill

53. Multiple Regression Analysis of Relationship Between Gain in Achievement of the Experimental Group (PLM) of LD Students with AM, HLF, SES& SH

54. Multiple Regression Analysis of Relationship Between Gain in Achievement of the Experimental Group (PLM) of ND Students with AM, HLF, SES& SH
55. Multiple Regression Analysis of Relationship Between Gain in Achievement of the Experimental Group (SLM) of LD Students with AM, HLF, SES & SH

56. Multiple Regression Analysis of Relationship Between Gain in Achievement of the Experimental Group (SLM) of ND Students with AM, HLF, SES & SH

57. Multiple Regression Analysis of Relationship Between Gain in Achievement of the Experimental Group (GII) of LD Students with AM, HLF, SES & SH

58. Multiple Regression Analysis of Relationship Between Gain in Achievement of the Experimental Group (GII) of ND Students with AM, HLF, SES & SH

59. Multiple Regression Analysis of Relationship Between Gain in Achievement of the Control Group (LDM) of LD Students with AM, HLF, SES & SH

60. Multiple Regression Analysis of Relationship Between Gain in Achievement of the Control Group (LDM) of ND Students with AM, HLF, SES & SH

61. Consolidated Results of the Relationship of the Gain in Achievement of the LD and ND Students with the Extraneous Variables Under PLM, SLM, GII and LDM
