ACKNOWLEDGEMENT

“Saying thank you is more than good manners. It is good spirituality.”

Gratitude is not only the greatest of virtues, but the parent of all others. Feeling gratitude and not expressing it is like wrapping a present and not giving it. Gratitude is the most exquisite form of courtesy. I take this opportunity to plant flowers of gratitude in the gardens of all those grateful personalities who have made my accomplishment look beautiful with their help.

At the outset I shower millions of thanks to my guide Dr. Pravin Bheda sir for identifying the researcher in me and depositing faith in my caliber. He has been the beacon light throughout the research work. Without his mentoring the present research would have remained nonstarter. At every phase of research work I have got his unflinching guidance both theoretically and operationally.

It has been said, “We can only be said to be alive in those moments when our hearts are conscious of our treasures”. I have been fortunate enough to have such invaluable treasure in the form of Dr. Ami Upadhyay…

I am greatly obliged to Dr. Iros Vaja for his zealous support and motivation in finding the lost path and in setting up the same. I am indebted to the continuous caring concerns of my friend, brother and mentor, Dr. Jiten Udhas.

I sincerely wish to thank my Dean Prof. (Dr.) R. B. Jadeja sir, Dr. Sunil Sagar and my colleagues for standing by me and motivating me to accomplish this task.

I am grateful to all those friends and well-wishers who have contributed their best before and during my research work.

Above all, this research work owes great deal to my family whose love inspired me throughout the process.
