ACKNOWLEDGEMENT ........................................................................................... v-vii
CONTENTS............................................................................................................... viii-xii
ABBREVIATIONS ................................................................................................... xiii-xv
LIST OF TABLES ................................................................................................. xvi-xviii
LIST OF FIGURES .............................................................................................. xix-xx

1. CREDIT AND RURAL POOR............................................................................... 1-33
  1.1 INTRODUCTION ............................................................................................. 1
  1.2 DEFICIENCIES IN INSTITUTIONAL CREDIT ACCESS BY RURAL POOR – A THEORETICAL OVERVIEW .......................................................... 5
    1.2.1 The Supply Side ........................................................................................... 5
      1.2.1.1 The Traditional View ....................................................................... 5
      1.2.1.2 The Problem of Information Asymmetry ........................................ 7
      1.2.1.3 The Problem of Enforcement.. ......................................................... 8
      1.2.1.4 The Problem of Government Intervention ....................................... 9
    1.2.2 The Demand Side ....................................................................................... 10
      1.2.2.1 Scarce Collateral and Interlinked Transactions ............................. 10
      1.2.2.2 Transaction Cost ............................................................................ 11
      1.2.2.3 The Nature of Loan Demand ......................................................... 12
    1.2.3 Microfinance and Credit Access by Rural Poor ........................................ 13
      1.2.3.1 The Supply Side ............................................................................. 13
      1.2.3.2 The Demand Side........................................................................... 16
  1.3 EXPERIENCE OF MICROFINANCE INSTITUTIONS .................................. 17
    1.3.1 Outreach ..................................................................................................... 18
    1.3.2 Impact ........................................................................................................ 20
    1.3.3 Sustainability.............................................................................................. 22
  1.4 KEY CONCERNS AND APPROACHES ........................................................ .25
    1.4.1 Savings First vs. Credit First.................................................................... 26
    1.4.2 Minimalist vs. Integrated .......................................................................... .28
    1.4.3 Individual Lending vs. Group-Based Lending ........................................... 29
  1.5 RELEVANCE OF THE STUDY IN THE PRESENT INDIAN MICROFINANCE SCENARIO ........................................................................ 30
2. RURAL CREDIT IN INDIA ................................. 34-78
2.1 INTRODUCTION ................................................. 34
2.2 CHARACTERISTICS OF RURAL HOUSEHOLDS .......... 36
   2.2.1 Poverty ......................................................... 36
   2.2.2 Distribution of Income, Assets and Occupation .... 37
2.3 INCIDENCE OF PARTICIPATION IN CREDIT MARKET .... 41
   2.3.1 By Occupation Category ................................. 42
   2.3.2 By Asset Size Class ........................................ 43
2.4 FLOW OF INSTITUTIONAL RURAL CREDIT ............... 44
   2.4.1 Policy Interventions in Rural Financial Services ...... 45
      2.4.1.1 Expanding Network of Rural Financial Institutions ... 46
      2.4.1.2 Deepening Outreach of Rural Financial Institutions ... 47
      2.4.1.3 Financial Sector Reforms During 1991 ............. 48
   2.4.2 Trends and Patterns in Institutional Rural Credit .... 49
      2.4.2.1 All Scheduled Commercial Banks .................. 49
      2.4.2.2 Rural Credit Cooperatives ............................ 56
2.5 SHARE OF INSTITUTIONAL RURAL CREDIT ............. 58
   2.5.1 Total Credit Outstanding ................................. 58
   2.5.2 By Asset Size Class ........................................ 59
   2.5.3 By Occupation and Purpose of Borrowing ............ 59
2.6 THE CHALLENGES IN ACCESS TO INSTITUTIONAL RURAL CREDIT .......... 60
   2.6.1 The Supply Side ............................................. 60
   2.6.2 The Demand Side ........................................... 63
2.7 NEW APPROACHES IN RURAL FINANCIAL SERVICES .... 64
2.8 CONCLUSION ...................................................... 66

3. MICROFINANCE PROGRAMMES IN INDIA: AN ANALYSIS OF TRENDS AND PATTERNS ACROSS MAJOR STATES . 79-121
3.1 INTRODUCTION .................................................. 79
3.2 INSTITUTIONAL SUPPORT TO MICROFINANCE IN INDIA .... 81
   3.2.1 Macro Financial Policy on Microfinance .............. 81
   3.2.2 Swarnajayanti Gram Swarojgar Yojana ................ 84
      3.2.2.1 The Target Group ..................................... 84
      3.2.2.2 Financial Intermediation ............................. 85
      3.2.2.3 Organisational Support .............................. 85
   3.2.3 NABARD ....................................................... 86
3.2.3.1 The Target Group................................................................. 87
3.2.3.2 Financial Intermediation....................................................... 88
3.2.3.3 Organisational Support ......................................................... 89
3.2.4 Small Industries Development Bank of India......................... 90
3.2.5 Rashtriya Mahila Kosh ............................................................. 91
3.2.6 Other Group-Based Financial Intermediaries ......................... 92
3.3 TRENDS AND PATTERNS OF MICROFINANCE IN INDIA ......... 93
3.3.1 NABARD's SHG-Bank Linkage................................................ 94
   3.3.1.1 All India .............................................................................. 94
   3.3.1.2 State-wise .......................................................................... 95
   3.3.1.3 Model-wise ....................................................................... 97
   3.3.1.4 Agency-wise ..................................................................... 99
3.3.2 SGSY SHG-Bank Linkage ...................................................... 100
   3.3.2.1 All India .............................................................................. 100
   3.3.2.2 State-wise .......................................................................... 102
   3.3.2.3 Population Group-wise ....................................................... 107
3.4 OUTREACH OF MICROFINANCE AND POVERTY ACROSS STATES .108
3.5 CONCLUSION.............................................................................. 111
4. KEY RESEARCH ISSUES, FIELDWORK METHODOLOGY AND
   FRAMEWORK OF THE STUDY .................................................. 122-142
4.1 BACKGROUND ........................................................................... 122
4.2 KEY RESEARCH ISSUES.............................................................. 122
4.3 METHODOLOGY OF FIELD-BASED EMPIRICAL RESEARCH ....... 123
4.4 FRAMEWORK OF THE STUDY .................................................... 126
   4.4.1 Selection of the Study State and Districts................................. 127
   4.4.2 Sampling and Survey Design................................................. 134
   4.4.3 Selection of Microfinance Programmes and Villages .............. 135
   4.4.4 Selection of Programme Participants .................................... 136
   4.4.5 Selection of Counterfactual ................................................... 136
4.5 QUESTIONNAIRES AND FIELD-WORK..................................... 137
   4.5.1 Household Questionnaire....................................................... 137
   4.5.2 Group Questionnaire.............................................................. 139
   4.5.3 Village Questionnaire ............................................................. 140
   4.5.4 Interview Schedule of MFO / Bank Officer ............................. 140
4.6 LIMITATIONS OF THE STUDY.................................................... 141
5. OUTREACH OF MICROFINANCE PROGRAMMES AND TARGETING OF THE POOR ............................................................ 143-178

5.1 INTRODUCTION ........................................................................................................... 143

5.2 LITERATURE REVIEW .................................................................................................. 144

5.3 DATA AND METHODOLOGY ...................................................................................... 147

5.3.1 Survey Data .............................................................................................................. 147

5.3.2 Methodology ........................................................................................................... 148

5.3.2.1 Difference between Population Groups - Parametric Approach .................... 148

5.3.2.2 Difference between Population Groups - Non-parametric Approach ............ 148

5.3.2.3 Examining Targeting by Probability Regression ........................................... 149

5.3.2.4 Examining Targeting by Level of Living Index .............................................. 150

5.4 ESTIMATION RESULTS .............................................................................................. 152

5.4.1 Differences in Household Characteristics ............................................................ 152

5.4.2 Determinants of Participation: Probit Regression Model .................................... 159

5.4.2.1 Data and Variables .............................................................................................. 159

5.4.2.2 Regression Results .............................................................................................. 161

5.4.3 Level of Living Index .............................................................................................. 166

5.5 CONCLUSION .............................................................................................................. 173

6. IMPACT OF MICROFINANCE PROGRAMMES .......................................................... 179-266

6.1 INTRODUCTION ........................................................................................................... 179

6.2 LITERATURE REVIEW .............................................................................................. 180

6.3 METHODOLOGY OF IMPACT ESTIMATION ................................................................ 185

6.3.1 Naïve Approach to Impact Assessment (OLS) .................................................... 186

6.3.2 Impact Assessment under Selection Bias /Endogeneity Bias ............................... 189

6.3.2.1 Treatment Effect Regression ............................................................................ 190

6.3.2.2 Instrumental Variable Regression .................................................................... 191

6.4 IMPACT ASSESSMENT ............................................................................................... 193

6.4.1 Nature of Clients and Credit Market Participation .............................................. 193

6.4.1.1 Source-wise Analysis ......................................................................................... 193

6.4.1.2 Purpose-wise Analysis ......................................................................................... 197

6.4.2 Estimation Results .................................................................................................. 199

6.4.2.1 Membership and Participation in Formal Credit Market ................................ 199

6.4.2.2 Membership and Participation in Informal Credit Market ............................ 201

6.4.2.3 Membership and Share of Borrowings from Institutional Sources ............... 204
