ACKNOWLEDGEMENT

A task such as this, could not be carried through and completed without the support of my teachers, colleagues and others, too numerous to mention whose help, I gratefully acknowledge.

I express deepest regards to my guide Dr. H.N. Samanta, Professor and Head, department of Radiology, M.L.B. Medical College, Jhansi, who directed me superbly in accomplishment of this project. His timely suggestion, interceptions and standard of perfection had been most rewarding for me. What impressed me most was his precision.

I don't find the words to convey my sincere most thanks to Dr. A.K. Gupta, M.D., Reader, department of Radiology, M.L.B. Medical College, Jhansi, who had been my co-guide in this project. Her co-operation and sympathetic attitude had always helped to boost-up my morale during the period of frustration. The joy and feeling of working under his guidance in really some thing out of this world.

I am thankful to Dr. Ramesh Kumar, M.C., D.C.H. Professor and Head of Paediatrics department, M.L.B. Medical College, Jhansi, who had been my co-guide in this project, without whose help this work would have never attained the present shape. He always extended his helping hand even during most busy periods. His masterly decision, depth of knowledge and sense of humor impressed me much.
I gratefully acknowledge the undefinable help and support extended to me, by my wife Poonam, Senior Resident, Department of Paediatrics, M.L.B. Medical College, Jhansi. She helped me a lot during thesis work despite her busy period.

I am also thankful to Mr. R.K. Vishwakarma for his meticulous care and painstaking labour in preparing the type script of this project.
