ACKNOWLEDGMENTS

With a deep sense of gratitude, I have pleasure in recording my sincere thanks to Dr. S. P. Saxena, M.Sc.; Ph.D., Principal D. V. Post-graduate College, Orai for guiding me the research work presented in the present thesis. During the tenure of research, he has always shown an affectionate and helpful attitude. He took much pains in checking the day to day work pointing out the mistakes, if any.

My grateful thanks are also due to Dr. B. C. Khurana, M.Sc.; Ph.D. Lecturer, Postgraduate Department of Chemistry, J. V. College Orai for his suggestions and help. He has given me full co-operation in presenting the present thesis. At each and every step he has acted as a source of constant inspiration.

I would also like to express my gratitude to the Head and members of Chemistry Department for providing the necessary library and laboratory facilities.

Without the blessings and constant encouragement of my parents, it would have never been possible for me to present the thesis in the present form. I sincerely thank them and also my wife who has been a source of inspiration to me.

My thanks are also due to all of my friends and colleagues who have directly or indirectly helped me in presenting this thesis.

J. P. Narain
