ACKNOWLEDGMENTS

I would like to express my deep sense of gratitude and greatest appreciation to the following people whose assistance and encouragement enabled me to complete this research work. First among them is my supervisor, Dr. Indranee Phookan Borooah, Professor, Department of Psychology, Gauhati University for the guidance, inspiration, support and supervision she has provided throughout the entire span of this research work. Without her constant encouragement and constructive criticisms, support, guidance, freedom and timely suggestions, the completion of this research work would not have been possible. Her generosity and caring cannot possibly be overstated. To her I convey my sincere gratitude.

I am grateful and thankful to Dr. Imlisongla Longkumar for her help in getting the tool-“Psychosis case vignette”.

I am also grateful to Mr. Anthony Francis Jorm, developer of the psychosis vignette to allow me to modify and use the same.

I am grateful to Indian Council of Social Science Research, New Delhi, for providing fellowship for two years.

I also thank and express my gratefulness to the persons who have given the access of visiting different places of Assam to collect the data.

I am thankful to all the respondents, who participated with much enthusiasm in this research work. The research work would never have been completed without their support and cooperation.

I am grateful to Mrs. Aditi Das, faculty from Gauhati Commerce College, for helping with the statistical analysis of my research data.

I also acknowledge my gratefulness for the moral support and cooperation that I received from my former entrepreneur, colleagues and staff of ‘Ashadeep’ along the process of the research work.
A special thanks to my best friend Ms. Plabita Das for assisting me in my visits to the different places of Assam for data collection and other states of India for referral works in the respective libraries, and also Ms. Sandamita Choudhury for her support and help throughout.

A special heart rendering thanks to my fiancé Mr. Bivash Nandi, and family for their support and guidance throughout the research work.

Lastly, but not the least I am filled with appreciation and gratitude towards my parents- my father Dr. Prabin Kr. Ghosh, my mother Mrs. Alay Ghosh- and brother Mr. Pranjal Ghosh for their timeless affection, guidance and virtuous support at each stage of the research work even when the process was rough and I felt low. They have been my greatest pillar of support. It is a matter of pride and pleasure to acknowledge them.

Finally, I dedicate this thesis to my father, who is no more in this world, who’s encouraging and inspiring words always helped me to overcome many obstacles I faced in the course of my research work. Also to many others, who helped me directly or indirectly in my research career, I am extremely grateful and thankful.

Snigdha Ghosh
