ACKNOWLEDGEMENTS

It is my first and foremost duty to express my profound sense of gratitude to my guide Dr. S.K. Srivatsa, Senior Professor (Retd) Anna University, Chennai, India. For his unwavering support. His wise counsel and suggestions from the budding to blossoming stage proved valuable. It is he, who is the soul, striving force and unifying factor behind this doctoral thesis. Not only his prolific guidance but also his unstinted support and blessings made this possible into a ground reality.

I sincerely extend my gratitude to the Management, Dr. S. Ravichandran, Vice-Chancellor, Dr. S. Gunasekaran, Dean, Research and Development and Dr. G.P. Ramesh, Head, Department of Electronics and Communication Engineering, St. Peter’s University, Chennai for their valuable guidance, encouragement and support during my research work.

I sincerely thank the Doctoral Committee members, Dr. M. Kannan, Professor and Head of the Department, Department of Electronics Engineering, MIT, Anna University, Chennai and Dr. D. Sridharan, Professor, Department of Electronics Engineering, Anna University, Chennai, for providing valuable comments and suggestions during this research work.

Finally, I would like to thank all those who were directly or indirectly helpful in carrying out this research.
