List of Tables

Table 4.1: Average EPS of the firms in BSE 100 Index for the period 2000-2014 ....... 57
Table 4.2: Frequency distribution of firms’ w.r.t average EPS for the period 2000-2014................................................................. 60
Table 4.3: The result of trend analysis as well as growth rate of EPS...................... 63
Table 4.4: Frequency distribution of growth rate of EPS.................................... 66
Table 4.5: Results of pooled regression model showing impact of O/S on firms EPS .. 67
Table 4.6: Results of pooled regression model showing impact of O/S on firms EPS .. 69
Table 4.7: Panel data analysis showing impact of ownership structure on EPS ......... 70
Table 4.8: Average ROI of the firms in BSE 100 Index for the period 2000-2014 ...... 72
Table 4.9: Frequency distribution of firms’ w.r.t average ROI for the period 2000-2014 ........................................................................ 75
Table 4.10: Results of trend analysis as well as growth rate of ROI....................... 76
Table 4.11: Frequency distribution of growth rate of ROI.................................... 79
Table 4.12: Results of pooled regression model showing impact of O/s on firms ROI . 81
Table 4.13: F-test and Hausman Test for model selection ...................................... 82
Table 4.14: Panel data analysis showing impact of ownership structure on ROI ..... 83
Table 4.15: Average PAT of the firms in BSE 100 Index for the period 2000-2014..... 84
Table 4.16: Frequency distribution of firm’s w.r.t Average PAT for the period 2000-2014 .................................................................................. 87
Table 4.17: Result of trend analysis as well as growth rate of PAT....................... 89
Table 4.18: Frequency distribution of growth rate of PAT ................................... 92
Table 4.19: Results of pooled regression model showing impact of O/S on firm’s PAT .............................................................................. 93
Table 4.20: F-test and hausman test for model selection........................................ 94
Table 4.21: Panel data analysis showing impact of ownership structure on PAT....... 95
Table 4.22: Average market capitalization of the firms in BSE 100 Index for the period 2000-2014 .................................................................................. 98
Table 4.23: Frequency distribution of firm’s w.r.t average market capitalization for the period 2000-2014 ........................................................................ 100
Table 4.24: The result of trend analysis as well as growth rate of market capitalization......................................................................................... 102
Table 4.25: Frequency distribution of growth rate of market capitalization .................................................. 105
Table 4.26: Results of pooled regression model showing impact of O/s on firms market capitalization .................................................................................................................. 107
Table 4.27: F-test and Hausman Test for model selection .............................................................................. 108
Table 4.28: Panel data analysis showing impact of ownership structure on market capitalization .............................................................................................................................................. 109
Table 4.29: Average PB value of the firms in BSE 100 Index for the period 2000-2014 .................................................. 110
Table 4.30: Frequency distribution of firm’s w.r.t average PB value for the period 2000-2014 .................................................. 113
Table 4.31: Result of trend analysis as well as growth rate of PB value ......................................................... 115
Table 4.32: Frequency distribution of growth rate of PB value ......................................................................... 118
Table 4.33: Results of pooled regression model showing impact of O/s on firms PB Value .................................................. 120
Table 4.34: F-test and hausman test for model selection ...................................................................................... 121
Table 4.35: Panel data analysis showing impact of ownership structure on PB Value .................................................. 122
Table 4.36: Average PE ratio of the firms in BSE 100 Index for the period 2000-2014 .................................................. 123
Table 4.37: Frequency distribution of firm’s w.r.t average price earnings ratio for the period 2000-2014 .............................................................................................................. 126
Table 4.38: Result of trend analysis as well as growth rate of PE Ratio ................................................................. 128
Table 4.39: Frequency distribution of growth rate of PE ratio .............................................................................. 131
Table 4.40: Results of pooled regression model showing impact of O/S on firms PE ratio .................................................. 133
Table 4.41: F-test and hausman test for model selection ...................................................................................... 134
Table 4.42: Panel data analysis showing impact of ownership structure on PE ratio .................................................. 135
Table 4.43: Average dividend pay-out of the firms in BSE 100 Index for the period 2000-2014 .................................................. 138
Table 4.44: Frequency distribution of firm’s w.r.t average DPR for the period 2000-2014 .................................................. 140
Table 4.45: Result of Trend Analysis as well as growth rate of Dividend pay-out ratio .................................................. 142
Table 4.46: Frequency distribution of growth rate of dividend pay-out ratio .................................................. 145
Table 4.47: Results of pooled regression model showing impact of O/s on firms’ dividend pay-out ratio ................................................................. 147
Table 4.48: F-test and hausman test for model selection ................................................................. 148
Table 4.49: Panel data analysis showing impact of ownership structure on dividend pay-out ratio ............................................................................. 149
Table 4.50: Average promoters holding of the firms in BSE 100 Index for the period 2000-2014 ............................................................................. 151
Table 4.51: Frequency distribution of firms w.r.t average promoters holding for the period 2000-2014 ............................................................................. 154
Table 4.52: Average non promoters holding of the firms in BSE 100 Index for the period 2000-2014 ............................................................................. 155
Table 4.53: Frequency distribution of firm’s w.r.t average non- promoters holding for the period 2000-2014 ............................................................................. 158
Table 4.54: Average non promoters institutional holding of the firms in BSE 100 Index for the period 2000-2014 ............................................................................. 160
Table 4.55: Frequency distribution of firm’s w.r.t average non promoters institutional holding for the period 2000-2014 ............................................................................. 162
Table 4.56: Average non promoters non institutional holding of the firms in BSE 100 Index for the period 2000-2014 ............................................................................. 164
Table 4.57: Frequency distribution of firm’s w.r.t average non-promoter non-institutional holding for the period 2000-2014 ............................................................................. 167

Table 4.58: Summary of Data Analysis ......................................................................................... 168
List of Figures

Figure 4.1 Graph showing frequency distribution of EPS ........................................ 60
Figure 4.2 Graph showing frequency distribution of growth in EPS .......................... 66
Figure 4.3 Graph showing frequency distribution of ROI ........................................... 75
Figure 4.4 Graph showing frequency distribution of growth in ROI ............................. 80
Figure 4.5 Graph showing frequency distribution of PAT ......................................... 88
Figure 4.6 Graph showing frequency distribution of growth rate in PAT ................... 92
Figure 4.7 Graph showing frequency distribution of market capitalization ................. 101
Figure 4.8 Graph showing frequency distribution of growth in market capitalization 106
Figure 4.9 Graph showing frequency distribution of PB value ................................. 114
Figure 4.10 Graph showing frequency distribution of growth in PB Value ................. 119
Figure 4.11 Graph showing frequency distribution of P/E Ratio ............................... 127
Figure 4.12 Graph showing frequency distribution of growth in P/E Ratio ................. 132
