ACKNOWLEDGEMENTS

It is with a sense of respect and immense pleasure that I express my deep feelings of gratitude to my research supervisor Dr. M. George, Lecturer Selection grade, Post-graduate and Research Department of Chemistry, Sacred Heart College, Thevara, Kochi for his constant encouragement, intellectual inspiration, creative suggestions and continued help during the course of my research. Words are inadequate to express my indebtedness and appreciation for him.

My sincere thanks are also due to:

- Rev. Fr. Paulose Kidengen CMI, the Manager, Sacred Heart College and
- Rev. Dr. Johnson Palackappillil CMI, the Principal, for the encouragement and the facilities provided for carrying out this research work
- Rev. Fr. A.J. Saviance CMI, the Former Principal, for the inspiration and co-operation
- Rev. Dr. Aleyamma Zachariah, for the valuable guidance and inspiration
- Prof. Michael L. Gross and Dr. Daryl Giblin, Washington University, USA and Dr. R. Srinivas, IICT, Hyderabad for the mass spectral analysis
- Prof. P.J Kuruvachan, Prof. M.T. Mathew, the Former Heads of the Department of Chemistry for the encouragement
- Prof. P.J Joseph the Head of the Department of Chemistry for the co-operation
- Mrs. June Cyriac for the theoretical calculations and co-operation
- My colleagues at Sacred Heart College for their support
- Members of the non-teaching staff of Chemistry and the office for their service
- UGC, New Delhi for the financial assistance under Faculty Improvement Programme

I raise my heart with gratitude to God Almighty for the heavenly patronage.

Words could not express my feelings for my parents, my wife - Mini, my sons – Emil and Amal, my family members, relatives and friends for their support and encouragement throughout my research career.

Thevara

11th October 2010
