

## ACKNOWLEDGEMENTS

This investigation was carried out under the supervision of Shri. P.M.Mathew, Reader in Botany, University of Kerala, Trivandrum. I wish to express my deep indebtedness to him for suggesting this problem and for valuable guidance and encouragement throughout the course of this work, and for helpful suggestions and advice in the preparation of the manuscript.

I am very grateful to Prof. C.A.Ninan, Head of the Department of Botany, University of Kerala for valuable suggestions and encouragements, for critically going through the manuscript and for providing facilities for carrying out this work. I also wish to express my sincere gratitude to Dr. A.N.Namboodiri, Professor of Botany for valuable suggestions and encouragements.

I am thankful to Shri. P.S.Janardhanan Nair, Reader in Statistics, University of Kerala for the help rendered in statistical analysis.

I am also thankful to Messrs. A.Krishnankutty Nair, T.L.John and M.Krishna Sait for the assistance rendered in the preparation of photographic illustrations. The assistance rendered by Shri. R.Narasimhan Potti in typing the thesis is gratefully acknowledged.

The co-operation and help rendered by the Director, Botanical Survey of India, Coimbatore in the verification of species determinations of the materials used in this study are gratefully acknowledged.

I am thankful to the University of Kerala and the CSIR, Government of India for the award of Research Fellowships during the period of this investigation.
