3. Do not put any mark on this booklet.

4. This scale consists of a number of items which are in the term of statements.

5. For every statement, the possible responses are divided into five categories which are: Always, Frequently, Sometime, Rarely and Never. Read each statement of an item very carefully and put a cross under the category which, in your opinion, best expresses your feelings about the statement. If you feel, the statement is true for you always, put a cross (x) under the column marked always, if frequently, put a cross under Frequently, if sometimes, put a cross under sometimes and if rarely, put a cross under Rarely and if never, put a cross under Never. In this way, you have to give your responses to all the statements. For your help, a sample item is given below:
SAMPLE ITEM

If I do not understand a subject or a topic, I make every effort to study hard so that I develop a good understanding of that subject / topic rather than leave it as a difficult subject / topic.

If your response after reading this item is, say "Frequently" then put a cross under the category "Frequently" as shown below.

Always  Frequently  Sometimes  Rarely  Never

☐  ☐  ☐  ☐  ☐  ☐

6. Please note that only one cross should be put under only one category for one statement. Do not put the cross in more than one category and do not put more than one cross under one category. Also do not put the cross in between the two categories. The cross should be clearly indicated under one category.

7. Do not leave any item blank. A response must be made to each statement.

8. This is not an ability test and there are no right or wrong responses. This is only trying to measure your feelings.

9. Do not spend too much time on one statement. There is no time-limit for completing this work, but try to work quickly and carefully and try to give the first and the
best response that comes to your mind on reading each statement.

10. The results will be kept confidential and will be used only to your advantage and for research purposes only. They will never be used for any disadvantages to you. So please do not worry and try to be honest and frank in giving your responses.
