Acknowledgement

Prima facie I would like to express my deep sense of gratitude to my supervisor Prof. (Dr) Anita Mukherjee, professor in Botany, University of Calcutta. Her dedication, dynamic interest, and above all her overwhelming attitude to help her students had solely been responsible for the successful completion of my work. Her scholarly advice, meticulous scrutiny, undaunting effort for reaching perfection and finally her motherly love have not only incented but have truly buttressed me to a great extent for the accomplishment of my task. I couldn’t have imagined a better advisor for Ph. D study.

It’s a genuine pleasure to thank the entire Department of Botany, and other respected faculty members as well for lending their assistances at time of need.

My sincere thanks go to the head of the Department of Botany for allowing me to use the instrument facilities of the department throughout the tenure of my research.

I take this opportunity to extend my special thanks to Prof. (Dr) Amitava Mukherjee, (professor, VIT) for generously gifting me with the gold nanoparticles which I have worked with during my research.

I am fortunate enough to have fellow lab mates like Dr. Sulata Maity, Dr. Swarupa Ghosh, Dr. Anish Nag, Mrs. Manoswini Chakrabarti, Mrs. Aditi Jana, Ms. Ilika Ghosh, Ms. Priya Goswami, Mr. Ritesh Banerjee and Mr. Manivannan J who had made the entire journey so very comfortable and seamless for me. I owe to them a lot for their inspiration, stimulating discussion, prompt cooperation and impeccable fun that we have had for the last four years.
I am thankful to my alma mater (Loreto Day School and Vidya Sagar College) for their valuable contributions towards building the foundations of my life.

Last but not the least; I would to thank my parents and especially my younger brother Mr. Arpan De from the deepest core of my heart for their unfathomable motivation and support in my life.

Financial assistance of University Grants Commission is duly acknowledged.

Finally, I am grateful to the Almighty Lord for the good health and well being that were necessary for persuasion of my research and completion of my thesis.
