List of corrections as suggested by the Examiners:

- Chapter III and Chapter VII has been merged as per the First Examiner’s Report.

- The typographical errors have been rectified.

- In the methodology chapter, the lines stating that "the researcher had tried her best in scrutinizing the sources, and finding whether they were unbaised, trustworthy and well-versed with the written facts", has been explained in the review of related literature chapter.

- Since no publisher or date of publishing could be traced in case of a few references, the researcher omitted the same.
