LIST OF TABLES

Table 1: University libraries brought under the survey … 09
Table 2: Variables and indicators for university libraries … 10
Table 3: Variables and indicators of users … 11
Table 4: Enrollment of students at primary Level, 1994-2004 … 22
Table 5: A comparative study on national revenue budget for education and budget for the public universities is shown below from fiscal year 1995-96 to 2004-05 … 44
Table 6: Existing status of IT-based library services of universities … 125
Table 7: Existing status of IT-based library services of universities … 129
Table 8: Existing status of IT-based library services of universities … 134
Table 9: Existing status of IT-based library services of universities … 138
Table 10: Distribution of libraries by types … 144
Table 11: Distribution of libraries as per area status … 145
Table 12: Distribution of libraries by status of methods of processing of reading materials … 146
Table 13: Percentage wise status of methods of processing of Reading materials of public and private universities … 146
Table 14: Distribution of libraries by status of cataloguing code used for processing of reading materials … 147
Table 15: Percentage wise status of cataloguing code used by university libraries for processing of reading materials … 147
Table 16: Distribution of libraries by status of form of catalogue used in the university libraries … 148
Table 17: Distribution of libraries by cataloguing status of serials (journals, magazines, periodicals) holdings … 149
Table 18: Distribution of libraries by status of list of subject headings used in different university libraries … 149

Table 19: Distribution of libraries by status of resources as of 31 December 2007 150

Table 20: Distribution of libraries by status of library staff … 151

Table 21: Distribution of libraries by computers and infrastructure facilities … 151

Table 22: Distribution of libraries by status of hardware configuration … 152

Table 23: Distribution of libraries by status of computer facilities for users … 153

Table 24: Distribution of libraries by status of software and network facilities for the users … 154

Table 25: Status of inputting records in the databases by different libraries … 155

Table 26: Distribution of libraries by status of willingness and reasons of joining network. … 155

Table 27: Distribution of libraries by status of joining consortium, providing services by IT facilities, and opinion about existing facilities of the libraries surveyed. … 156

Table 28: Distribution of libraries by status of budget in Taka … 158

Table 29: Distribution of libraries by status of services … 159

Table 30: Distribution of libraries by status of mode of services … 160

Table 31: Distribution of libraries by status of technologies were used for library services … 162

Table 32: Distribution of libraries by status of types of services demanded by the users … 163

Table 33: Status of libraries should be computerized with the facilities of information technologies … 164

Table 34: Status of problems in providing services with IT facilities … 165

Table 35: Status of sex of users … 169

Table 36: Characteristics of users by status … 169

Table 37: Status of users’ visit to the library … 170

Table 38: Status of purpose of library use by the users … 171

Table 39: Distribution of libraries by status of allotment of time to research or study in a week … 172

x
Table 40: Status of users’ satisfaction in using journals for research work

Table 41: Distribution of libraries by percentage wise status of research work was fulfilled by the journals received in libraries

Table 42: Distribution of libraries by percentage wise status of users on awareness of online databases subscribed by the respective library

Table 43: Distribution of libraries by percentage wise status of users’ satisfaction with the arrangement of resources in the respective library

Table 44: Distribution of libraries by percentage wise status of reading room space in the respective library

Table 45: Status of services rendered by private and public university library

Table 46: Status of additional services expected by users according to the priority

Table 47: Status of recommendations by users about databases and online facilities should be added with the existing facilities of the respective library
LIST OF FIGURES

Figure 1: Percentage wise status of form of catalogue used ... 148
Figure 2: Percentage wise status of services are provided by mail, ... 157
Telephone, fax, and e-mail by public and private University libraries
Figure 3: Percentage wise status of mode of library services ... 161
Figure 4: Percentage wise status of mode of circulation services ... 161
Figure 5: Percentage wise status of mode of catalogue searching ... 162
Figure 6: Percentage wise status of interlibrary loan and document ... 166
Delivery system
Figure 7: Percentage wise status of digitization programme started ... 167
in the libraries
Figure 8: Percentage wise status of meeting of information ... 173
needs by the users
Figure 9: Percentage wise status of users on awareness of holding ... 174
journals received by the respective library
Figure 10: Percentage wise status of users on awareness of ... 177
international online databases subscribed by the respective library
Figure 11: Percentage wise status of users on international online ... 178
databases that should be added to current subscription
