**LIST OF THE DIAGRAMS**

1) An *Ayurvedic* Concept of the *Anudhooti of Shool*.

2) The Anterior and Lateral Division of the Anterolateral Pathway.

3) Transmission of both, acute sharp and slow Chronic pain signals into and through the spinal cord on the way to brain stem.

4) Transmission of pain signals into the hind-brain, thalamus and cortex via the fast pricking pain pathway and the slow burning pain pathway.

5) Mechanism of referred pain and referred hyperalgesia.

6) The analgesia system of the brain and spinal cord, showing inhibition of incoming pain signals at the cord levels.
