ACKNOWLEDGEMENTS

The ability to give thanks is a gift from God. Therefore, my heartfelt gratitude to the Almighty, for the countless blessings He has showered on me, especially the confidence and courage to complete this work successfully.

My sincere thanks to my Guide Dr. K. Veeraiah, Assistant Professor, Department of Zoology, Acharya Nagarjuna University, for his constant encouragement throughout the course of this investigation and his expert and conscientious guidance in the field of Aquatic toxicology.

I wish to thank Dr. M.K. Durga Prasad, retired Professor, Department of Zoology, Acharya Nagarjuna University, for suggesting the topic as overall as his constant encouragement throughout this work.

I owe my deepest gratitude to Prof. K. R. S. Sambasiva Rao, Chairman, Board of Studies, Department of Biotechnology, Zoology & Aquaculture and Environmental Science, Acharya Nagarjuna University, for his help, constant support and encouragement during the course of this work.

I am thankful to Prof. Y. Ranga Reddy, (Professor Emeritus) Head, Department of Zoology, Prof. Mrs. V. Vivekavardhani, Retired Head of the Department of Zoology, Dr. P. Padmavathi, Head of the Department of Zoology and Aquaculture, for providing all the necessary facilities and support.

I am grateful to Mr. G. Simhachalam, Dr. K. Sumanth Kumar, Dr. K. Suneetha, Dr. V. Venkata Ratnamma, Dr. M. Jagadish Naik and Dr. N. Gopala Rao, Department of Zoology, for their assistance and interest in my study.
I am indebted to Rev. Fr. Joseph Sebastian, S.J., the former Provincial and Rev. Fr. P. S. Amalraj, S.J., the present Provincial of the Andhra Jesuit Province, for having given me the opportunity to do my studies.

I owe a deep sense of gratitude to the Jesuit Community of Andhra Loyola College, Vijayawada, for their love, concern, understanding and encouragement. They relieved me of my teaching duties and responsibilities and enabled me to complete my work. I also thank the Ananda Jyothi Community, Nagarjuna Nagar, for their encouragement and support.

I thank Dr. P. Balasundar Reddy, Mr. K. Ravi Shankar, Mr. G.M. Srirangam, Mrs. Sandhya Sri, Ms. Vijaya Santhi, Mrs. M. Lilly Mary, Ms. V. Swathi, Mr. B. Vijaya Raj, Mrs. P. Manjula, Mr. B. Elia and Mr. M. John, Department of Zoology, Andhra Loyola College, for their timely help and encouragement.

I specially thank Dr. G. A. Prasad Rao, Lecturer in Library Science, Andhra Loyola College for his constant encouragement and support.

I heartily acknowledge the timely help, suggestions, understanding and cooperation of my friends Sr. Japamalai, Mr. G. D. V. Prasad Rao and Mrs. Ramani, during the course of my study.

I appreciate and acknowledge the help extended to me by Dr. P. Ramanujam, Ph.D. retired Reader in English, Andhra Loyola College, Vijayawada, for his readiness in meticulously going through the script and shaping it.

I express my gratitude to Mr. Ch. Vivek (Gandredu), Research scholar, Acharya Nagarjuna University. His timely help, knowledge and sincerity helped me finish this work. I profusely thank Mr. P. Bala swamy and Mr. Satyanarayana for typing the manuscript.
Last but not least, I thank the Director, Vimta Lab, Hyderabad, for the use of LC/MS/MS for quantitative analysis of spinosad bioaccumulation residue analysis. I express my sincere thanks to Mr. Kumar, Govardhan Diagnostic Centre, Guntur, for his help in the estimation of the enzymes and Helini Biomolecular centre, Guntur, for protein & DNA electrophoretic tests.
