5.14 Preference for Warehouse Management System (WMS)  
5.15 Preference for Customer Relationship Management (CRM)  
5.16 Preference for Supplier Relationship Management (SRM)  
5.17 Preference for Advanced Planning System (APS)  
5.18 Preference for Just In Time (JIT)  
5.19 Preference for E-Commerce  
5.20 Preference for Decision Support System  
5.21 Preference for Radio Frequency Identification (RFID)  
5.22 Preference for Electronic Data Interchange  
5.23 Preference of Transport Management System  
5.24 Transportation facility in logistics department  
5.25 Activities to boost the production  
5.26 Problematic areas of supply chain department  
5.27 Delivery performance of logistics department  
5.28 Effectiveness of aggregate planning

6.1 Elements of SCM – Parametric value  
6.2 Elements of SCM using one sample t- test  
6.3 Benefits of SCM- Parametric values  
6.4 Benefits of SCM- one sample ‘t’ test  
6.5 Benefits of SCM - KMO and Bartlett’s test
6.6 Benefits of SCM – Communalities
6.7 Benefits of SCM - Total Variance
6.8 Benefits of SCM - Rotated component matrix
6.9 Problems of SCM - KMO and Bartlett's test
6.10 Problems of SCM - Communalities
6.11 Problems of SCM - Total Variance
6.12 Problems factors of SCM - Rotated component matrix
6.13 Impacts of SCM - KMO and Bartlett's test
6.14 Impacts of SCM - Communalities
6.15 Impacts of SCM - Total Variance
6.16 Impacts of SCM - Rotated Component Matrix
6.17 Supporting measures for effective SCM – Parametric value
6.18 Supporting measures for effective SCM - one sample t test
6.19 Parameters for aggregate planning - Parametric value
6.20 Parameters for aggregate planning in SCM-one sample ‘t’ test
6.21 Suppliers and vendors management to better SCM- parametric value
6.22 Suppliers and vendors measurement to better SCM- one sample ‘t’ test
6.23 Cost management metrics –parametric values
6.24 Cost management metrics - one sample ‘t’ test

6.25 Customer service metrics — Parametric value

6.26 Customer service metrics - one sample ‘t’ test

6.27 Quality measurement — parametric value

6.28 Quality metrics - one sample ‘t’ test

6.29 Productivity metrics- parametric value

6.30 Productivity metrics- one sample ‘t’ test

6.31 Asset management metrics –Parametric value

6.32 Asset management metrics - one sample ‘t’ test

7.1 Correlation analysis between benefits and impacts of SCM

7.2 Inter relationship among cost management, customer service, quality, productivity and asset management

7.3 Executives’ designation and factors of benefits, problems and impacts factors of SCM

7.4 Experience towards benefits, problems and impacts of SCM

7.5 Executives department and benefits, problems and impacts of SCM-ANOVA

7.6 Educational background of the executives and benefits, problems, impacts of SCM-ANOVA

7.7 Transportation facility and overall performance metrics ANOVA

7.8 Operational, tactical and current programming strategies and overall performance metrics- ANOVA
Problems taking care of raw materials and overall performance metrics—ANOVA

Logistics department delivery performance and overall performance metrics—ANOVA

Aggregate planning and overall performance metrics - ANOVA.

Benefits and problems factors of SCM on competency increase

Benefits and problems of SCM on competency increase—Regression fit

Impacts of benefits and problems of SCM on competency increase—regression co-efficient

Benefits and problems on technological augmentation

Benefits and problems of SCM on technological augmentation—Regression fit

Benefits, problems of SCM on technological augmentation—Regression co-efficients

Benefits and problems of SCM on infrastructural development

Benefits and problems of SCM on infrastructural development—Regression fit

Benefits and problem of SCM on Infrastructural development—Regression co-efficients

Benefits and problems of SCM on human resource derivation

Benefits and problems of SCM on human resource derivation—
Regression fit

7.23 Benefits and problems on human resource derivation - Regression fit

7.24 Benefits and problems of SCM on periodic review

7.25 Benefits and problems of SCM on periodic review - Regression fit

7.26 Benefits and problems on periodic review - Regression coefficients

7.27 Benefits of SCM based on executives perception - final cluster

7.28 Benefits of SCM based on executives perception - number of cases in each cluster

7.29 Problems of SCM based on executives perception - Final cluster

7.30 Problems of SCM based on executives perception - Number of cases in each cluster

7.31 Impacts of SCM based on executives perception - final cluster

7.32 Impacts of SCM based on executives perception - number of cases in each cluster

7.33 Benefits and problems clusters of SCM - Cross table

7.34 Benefits and problems cluster of SCM – Association

7.35 Benefits and impacts cluster of SCM - Cross table

7.36 Benefits and impacts cluster of SCM - Association

7.37 Problems and impacts clusters of SCM – Cross table

7.38 Problems and impacts clusters of SCM - Association
7.39 Benefits clusters and separate logistics department- cross table 248
7.40 Benefits clusters and separate logistics department- Association 249
7.41 Benefits cluster and logistics strategic plan –Cross table plan 249
7.42 Benefits cluster and logistics strategic plan –Association 250
7.43 Benefits and procedure for non-conformities- Cross table 251
7.44 Benefits cluster and procedure for non-conformities- Association 252
7.45 Problems clusters and separate logistics department- Cross table 253
7.46 Problems clusters and separate logistics department- Association 254
7.47 Problems clusters and logistics strategic plan – Cross table 254
7.48 Problems clusters and logistics strategic plan- Association 255
7.49 Problems cluster and procedure for non-conformities – Cross table 256
7.50 Problems cluster and procedure for non-conformities – Associations 257
7.51 Impacts cluster and logistics strategic plan –Cross table 258
7.52 Impacts cluster and logistics strategic plan –Association 258
7.53 Impacts cluster and procedure for non-conformities - Cross table 259
7.54  Impacts cluster and procedure for conformities – Association  260
7.55  Structural equation model analysis result  264
