And Allah said, "Let there be light," and there was light. At the outset, I surrender myself to Almighty Allah, for showering His blessings upon me for making me able to complete this work and peace be upon all His messengers for their guidance to mankind.

I am bereft of words to thank my supervisor, Prof. Shabbir Ahmad for his keen interest, valuable guidance, strong motivation, constant support and encouragement. His outlook on research and enthusiasm for life has been invaluable. He has been the most fantastic role model. Thanking him for always challenging and helping me to achieve this goal. I will be forever grateful for the opportunities he has given me and the doors he has opened.

I am immensely grateful to Prof. Mohd. Afzal Ansari, Chairman, Department of Physics, A.M.U. Aligarh for providing me all the necessary facilities. I owe profound thanks and would like to express my sincerest appreciation to Retd. Prof. Rahimullah Khan, Ex-Chairman, Department of Physics, A.M.U. and Dr. S. M. family. These silly words cannot express how I feel. You guys have provided me some of the best memories.

To my dear friends at home: Dr. Irfan Nabi, Umar jan, Ishtiyag Hurrah, Javid Reshi and Bilal Hurrah: Hey guys; You are awesome. Thanks for being always there, standing by my side and inspiring me throughout this duration. There is too much for you to say, so I will do one brisk sweep and say THANK YOU to all of you!

Thank you Mohd. Abdullah Mir (Nanaji), Amina Akhter (Khala), Shameema (Mami), Gh. Mohammad (Uncle), Jana Akhter (Aunt), Riyaz Ahmad (Cousin) for your constant support and encouragement. Finally, the whole credit and special thanks goes to my dear Parents and Brother (Irfan Majeed Bhat) for their unconditional love, sacrifice and patience throughout these years away from home. Though I fear heights, I am happy that you have given me a beautiful glimpse of the world from up high. I do not regret the view. Cheers!
