## CHAPTER I: HEALTH SECTOR IN INDIA: AN OVERVIEW

1.0. Introduction .............................................. 1
1.1. Definition of health ...................................... 2
   1.1.1. Health status and health care .................. 3
1.2. Health status in India .................................. 4
   1.2.1. Pre-Independence period ......................... 4
   1.2.2. Post-Independence period (1951-1997) ....... 7
   1.2.3. Present health status .......................... 12
1.3. Health status in Andhra Pradesh .................... 14
1.4. Allocation of funds to health sector in AP .......... 19
1.5. Motivation for the present study .................... 20
1.6. Broad objectives of the study ........................ 21
1.7. Chapter outline ........................................ 21

## CHAPTER II REVIEW OF LITERATURE

2.0. Introduction ............................................ 23
2.1. Studies on hospital efficiency ....................... 23
   2.1.2. Econometric studies ............................ 24
   2.1.3. Studies for developed countries ............... 32
   2.1.4. Studies for developing countries .............. 37
   2.1.5. Studies for Andhra Pradesh .................... 43
2.2. Financing of health services ........................ 44
2.3. Conclusion ............................................. 45

## CHAPTER III HOSPITAL PERFORMANCE AND EFFICIENCY

ALTERNATIVE APPROACHES ................................. 46–70

3.0. Introduction ............................................ 46
3.1. Cost accounting method ................................ 46
   3.1.1. Step down procedure ............................ 47
   3.1.2. Other accounting methods ....................... 48
3.2. Ratio analysis .......................................... 49
3.3. Combined utilization and productivity analysis .... 50
3.4. Statistical/econometric approaches ................. 52
   3.4.1. Technical and economic efficiency ............ 53
   3.4.2. Evaluation of hospital efficiency .............. 55
   3.4.3. Production and cost functions ................. 57
3.5. Specific objectives of the study .................... 70

## CHAPTER IV: HOSPITAL PERFORMANCE: AN EVALUATION

4.0. Introduction ............................................ 71
4.1. Sampling and Methodology ............................ 72
| 4.1.1 Sampling | 72 |
| 4.1.2 Methodology | 75 |
| 4.2 Empirical results | 78 |
| 4.2.1 District hospitals | 78 |
| 4.2.2 Area hospitals | 83 |
| 4.2.3 Community hospitals | 88 |
| 4.3 Determinants of hospital performance indicators | 92 |
| 4.3.1 Model | 92 |
| 4.3.2 Data | 94 |
| 4.3.3 Empirical results | 94 |
| 4.4 Summary and conclusion | 100 |

CHAPTER V HOSPITAL EFFICIENCY: AN ANALYSIS 111–187
5.0. Introduction 111
5.1. Data on hospital costs and outputs 112
5.2 Simple short-run cost function 116
5.3 Flexible hybrid cost function 128
5.4 Structural cost functions 133
5.5 Summary and conclusion 169

CHAPTER VI FINANCING HEALTH SERVICES AN ASSESSMENT 188–233
6.0. Introduction 188
6.1 Health care activities 189
6.2 Characteristics of health care 190
6.3 Intervention in preventive care 191
6.4 Intervention in curative services 193
6.5 Financing health interventions 197
6.6 The Indian case 204
6.6.1 Pattern of health expenditure in AP 205
6.6.2 User fees and its present status 210
6.7 Case study 211
6.7.1 Field survey 211
6.7.2 Summary 220
6.8 Conclusion 220

CHAPTER VII SUMMARY AND CONCLUSION 234–242

BIBLIOGRAPHY 243–253
