LIST OF TABLES

Tab.1 Composition of hydrosphere 05
Tab.2 Some significant anomalous properties of water 08
Tab.3 Some important informations about the major rivers of Orissa 23
Tab.4 Main features of the river Brahmani and the Mahanadi. 46
Tab.5 Main features of the river Brahmani and its tributaries. 47
Tab.6 Important cities and towns on the bank of the river Brahmani. 48
Tab.6(A) Major industries on the Brahmani's basin. 49
Tab.7 Designated best use of river water 53
Tab.8 Main features of Rengali dam and its reservoir. 54
Tab.9 Total Rainfall in mm during 1986 and 1987 in different places of study area. 57
Tab.10 Ambient air temperature and relative humidity at Jharsuguda observatory during 1986. 58
Tab.10(A) Ambient air temperature and relative humidity at Jharsuguda observatory during 1987. 59
Tab.11 Category of small scale industries in and around Rourkela. 61
Tab.12 Socio-economic feature of Rourkela industrial complex. 63
Tab.12(A) Population in different localities of the study area as per the census report 1981. 64
Tab.13 Major plant facilities and their capacities attached to Rourkela Steel Plant. 66
Tab. 14 Annual Raw material consumption by Steel Plant, Rourkela.

Tab. 15 Major products and byproducts produced by Steel Plant per month.

Tab. 16 Monitoring stations

Tab. 17(B) Health report from Government Hospital Barkote, during 1986-1987.

Tab. 17(C) Report from Veterinary Hospital, Bonaigah.

Tab. 18(A) Characterisation of organic components in the water samples of river Brahmani at Rourkela.

Tab. 18(B) Infra-red absorption data of different functional groups.

Tab. 19 The average, minimum and maximum variation of metal ions in the water samples of river Brahmani in the industrial complex of Rourkela.

Tab. 20 Temperature

Tab. 21 pH

Tab. 22 Conductivity

Tab. 23 Dissolved Carbon dioxide

Tab. 24 Dissolved Oxygen (DO)

Tab. 25 Biochemical Oxygen Demand (BOD)

Tab. 26 Chemical Oxygen Demand (COD)

Tab. 27 Alkalinity

Tab. 28 Total solids
Tab. 29  Total suspended solids  126
Tab. 30  Total hardness  127
Tab. 31  Calcium hardness  128
Tab. 32  Silica content  129
Tab. 33  Chloride content  130
Tab. 34  Phosphate content  131
Tab. 35  Sulphate content  132
Tab. 36  Nitrate nitrogen  133
Tab. 37  Nitrite nitrogen  134
Tab. 38  Soluble organic matters  135
Tab. 40  Water quality of river Brahmani, Average Physico-chemical parameters at the monitoring stations from Jan 1986 to Dec. 1986.
Tab. 41  Water quality of the river Brahmani. Average physico-chemical parameters at the monitoring stations from Jan 1987 to Dec. 1987.
Tab. 42(A) Seasonal variation of physico-chemical parameters of the monitoring stations in the river Brahmani.
Tab. 42(B) Average seasonal variation of physico-chemical parameters of the water samples of the river Brahmani.
Tab. 43  Minimum and Maximum variations of physico-chemical parameters at the monitoring stations
(A) During 1986  141
(B) During 1987  143
