ACKNOWLEDGEMENT

Any attempt to list the people and opportunities with which my life has been richly blessed would be like trying to count the stars in the heavens.

I would like to begin by dedicating this piece of work to my father and mother, whose dreams had come to life with me getting the highest degree in education. I owe my doctorate degree to my parents, who kept with their continuous care, support and encouragement my morale high. Thanks are due if I don’t dedicate this thesis to my brother whose constant and continuous support, love and affection made me reach this height.

It’s a great pleasure and immense satisfaction in expressing my deep gratitude towards my research supervisor, Dr. T. Rama Rao, principal, Department of Pharmacy, Avanthi Institute of Pharmaceutical Sciences, Hyderabad, for his dexterous guidance, suggestions and support which he bestowed to me. Mere acknowledging with words is inadequate to express my gratitude to him. He was always an inspiration to me in research. The work environment given to me under him, the experiences gained from him and his creative working culture are treasured and will be remembered throughout my life.

I deeply acknowledge and heartfelt thanks to Dr. Nalini Shastri, Associate Professor, Department of Pharmacy, NIPER-Hyderabad, for her valuable suggestions, guidance and precious time which she offered me throughout my research.

I am grateful to Dr. Laxmi Kantham, Director, Indian Institute of Chemical Technology and Dr. Ahmed Kamal, project director, NIPER-Hyderabad for allowing me to carry out my doctoral research work in the institute.

I am thankful to Prof. N. Satyanarayana, Registrar, NIPER-Hyderabad for his cooperation and encouragement at every stage of this research work.
I would like to express my gratitude to course coordinators Dr. S. Ramakrishna, Dr. Y.V.D. Nageshwar, and Dr. R, Srinivas for providing me with all the necessary laboratory facilities and for having helped me at various stages of my research work.

I would like to make a special note about the person, Dr. V.G.M. Naidu, who inspired me with his affectionate care, generous cooperation and timely support in times of need.

I would like to thank Dr. Prameela Rani, principal, Faculty of Pharmaceutical Sciences, Acharya Nagarjuna University, Guntur for her valuable support throughout the course.

My sincere thanks to all the teaching, non-teaching and Technical staff of NIPER-Hyderabad who have helped directly and indirectly in the successful completion of my dissertation.

I am grateful to Dr. Ravinder Kumar, Scientist, head, XRD division, Indian Institute of Chemical Technology, Hyderabad, India.

I express my thanks to project assistants, Natraj, Naga priya, and research scholar Dinesh Kumar for their assistance in animal experimentation and analytical experiments.

I am very much grateful to all my friends especially Sada Sivudu, Murali, Mahesh, Kiran Kumar, Bhaskar, Naga, and Ramesh for their continuous support throughout my work.

I am very much thankful to Aurobindo pharma, Hyderabad and Gattefosse India ltd., Mumbai for providing the necessary drugs and excipients as gift samples.

Lastly, and above all, I would like to thank the God Almighty, for all that he has given to me.

I thank everyone who helped me directly or indirectly.

Date: Chella Naveen
