Acknowledgements

It has been a great experience working under Prof. Pushpesh Pant, who is extremely kind to me. My sincere thanks are due to him for encouraging me to work on this topic. Had it not been for his invaluable help and constant encouragement, this work would not have seen the light of day. Further I want to acknowledge the help provided by Jambholkar (Associate Professor) and Prof. K.D. Kapur.

I am indebted to various prestigious libraries and institutions and their staff for permission to use their materials. Among them, I am pleased to mention the American Centre Library, Centre for Science and Environment, India International Centre, Jawaharlal Nehru University Library, the Ministry of Environment and Forests, Teen Murty Library and World Life Fund.
