Table 1.1: Relationship Marketing vis-a-vis Traditional Marketing .3
Table 1.2: International Trends in Telecom Business ..................... 18
Table 1.3: Growth of Indian Telecom Business – Projections vs. Actuals -Source: Ovum; Ernst & Young analysis...................... 19
Table 1.4: Growth of Subscriber Base in Indian Telecom............... 19
Table 1.5: Growth of Subscriber Base: Wireless vs. Wire line ....... 20
Table 1.6: Growth of Tele density ................................................ 20
Table 1.7: Growth in Rural Market............................................. 21
Table 1.8: Market Share of Wireless Service Providers ............... 21
Table 1.9: Trend in ARPU and MOU, the Parameters of Revenue for Telecom Service Providers................................. 22

Table 2.1: Summary Statement of Concepts of Model Constructs and Sources of Literature........................................ 80
Table 2.2: Summary Statement of Constructs Used in Different CRM Models ................................................................. 82

Table 3.1: Response Rate............................................................ 109
Table 3.2: Secondary Data Sources Used to Study CRM at BSNL in Chapter 4 Section B ................................................. 119

Table 4A.1: Profile of Respondents ............................................. 122
Table 4A.2: Service Usage Information ....................................... 123
Table 4A.3: Service Change Information .................................... 124
Table 4A.4: Reasons for Switch ................................................ 124
Table 4A.5: Previous Service Provider ....................................... 125
Table 4A.6: Cronbach’s Alpha for Model Constructs................. 126
Table 4A.7: Correlation of Items with the Construct of Survey Instrument ................................................................. 126
Table 4A.8: Perceived Value of Cellular Services......................... 131
Table 4A.9: Perceived Values of Cellular Services - Item Wise ... 132
Table 4A.10: Results of One Way ANOVA: Hypotheses 1a – 5e .. 135
Table 4A.11: Perceived Value of Cellular Services – Across Gender ..................................................................................... 137
Table 4A.12: Perceived Value of Cellular Services – Across Age ... 140
Table 4A.13: Perceived Value of Cellular Services – Across Occupation ........................................................................... 142
Table 4A.14: Perceived Value of Cellular Services – Across Type of Service ......................................................................... 144
Table 4A.15: Perceived Value of Cellular Services – across Period of Usage ......................................................................... 146
Table 4A.16: Customer Satisfaction ............................................ 148
Table 4A.17: Results of One Way ANOVA: Hypotheses 6a-6e .... 149
Table 4A.18: Customer Satisfaction across Gender ....................... 150
Table 4A.19: Customer Satisfaction across Age .......................... 151
Table 4A.20: Customer satisfaction across Occupation ................. 151
Table 4A.21: Customer Satisfaction across Type of Service .......... 151
Table 4A.22: Customer Satisfaction across Period of Usage .......... 152
Table 4A.23: Complaint Behavior ........................................... 153
Table 4A.24: Complaint Behavior across Gender ........................ 153
Table 4A.25: Complaint Behavior across Age ............................. 154
Table 4A.26: Complaint Behavior across Occupation ................... 155
Table 4A.27: Complaint Behavior across Type of Service ............. 155
Table 4A.28: Complaint Behavior across Period of Usage ............. 156
Table 4A.29: Complaint Handling ........................................... 157
Table 4A.30: Complaint Handling across Gender ....................... 159
Table 4A.31: Complaint Handling across Age ............................. 159
Table 4A.32: Complaint Handling across Occupation ................. 160
Table 4A.33: Complaint Handling -Type of Service .................... 161
Table 4A.34: Complaint Handling -Period of Usage .................... 161
Table 4A.35: Trust in BSNL ............................................... 161
Table 4A.36: Trust in BSNL across Gender ............................... 163
Table 4A.37: Trust in BSNL across Age .................................. 163
Table 4A.38: Trust in BSNL across Occupation ......................... 164
Table 4A.39: Trust in BSNL across Type of Service .................... 164
Table 4A.40: Trust in BSNL across Period of Usage .................... 165
Table 4A.41: Commitment to BSNL ....................................... 166
Table 4A.42: Commitment to BSNL across Gender ...................... 169
Table 4A.43: Commitment to BSNL across Age .......................... 171
Table 4A.44: Commitment to BSNL across Occupation ................. 174
Table 4A.45: Commitment to BSNL across Type of Service .......... 175
Table 4A.46: Commitment to BSNL across Period of Usage .......... 177
Table 4A.47: Loyalty to BSNL ............................................. 179
Table 4A.48: Loyalty to BSNL across Gender ............................ 181
Table 4A.49: Loyalty to BSNL across Age ................................. 182
Table 4A.50: Loyalty to BSNL across Occupation ...................... 184
Table 4A.51: Loyalty to BSNL across Type of Service ................. 186
Table 4A.52: Loyalty to BSNL across Period of Usage ............... 187
Table 4A.53: Customer Relationship Quality ............................ 191
Table 4A.54: Customer Relationship Quality across Gender .......... 193
Table 4A.55: Customer Relationship Quality across Age ............ 194
Table 4A.56: Customer Relationship Quality across Type of Service 195
Table 4A.57: Customer Relationship Quality across Period of Usage 195
Table 4A.63: Customer Relationship Quality across Period of Usage ................................................. 196
Table 4A.64: Summary of Hypothesis for Testing Hypothesised Model Variables ................................................................. 197
Table 4A.65 (a – h): Correlation of Model Variables ................................................. 199
Table 4A.66: Results of Multiple Linear Regressions (Perceived value and Customer Satisfaction) ............................................. 203
Table 4A.67: Results of Multiple Linear Regressions (Perceived Value and Trust) .................................................. 205
Table 4A.68: Results of Multiple Linear Regressions (Perceived Value and Commitment) ........................................ 208
Table 4A.69: Result of Linear Regression of Customer Satisfaction to Complaint Behavior .............................................. 210
Table 4A.70: Result of Linear Regression of Customer Satisfaction with Trust ................................................................. 211
Table 4A. 71: Result of Linear Regression of Customer Satisfaction with Loyalty ................................................................. 213
Table 4A. 72: Result of Linear Regression of Complaint Handling with Trust ................................................................. 214
Table 4A. 73: Result of Linear Regression of Complaint Handling with Commitment ................................................................. 216
Table 4A. 74: Result of Linear Regression of Customer Trust with Loyalty ................................................................. 217
Table 4A. 75: Result of Linear Regression of Customer Trust with Commitment ................................................................. 219
Table 4A. 76: Result of Linear Regression of Commitment with Loyalty ................................................................. 221
Table 4A. 77: Result of Linear Regression of Loyalty with ........... 222
Table 4A. 78: Result of Linear Regression of Customer satisfaction and Relationship quality ............................................. 223
Table 4A.79: Summary of Regression for Research Model on BSNL Customer Perception Survey ........................................... 226
Table 4A.80: Coefficient Summary (Beta Estimates for Research Model on Customer Relationship Quality, BSNL Customer Perception Survey) ............................................. 228
Table 4A.81: Summary Results of Null Hypotheses Testing H1a to H11e (One way ANOVA) ............................................. 230
Table 4A.82: Hypotheses Summary of Relationship Quality Model Variables ................................................................. 231

Table 4B.1: Projects for Multifaceted Strength of BSNL ............ 277

Table 4C.1: Profile of Respondents ................................................................. 291
Table 4C.2: CRM Practices of BSNL as Perceived by Respondent Employees: Cronbach’s Alpha for Model Factors .... 292
Table 4C.3: Inter Item Descriptive Statistics of Factor: Market Orientation - Key Customer Focus ......................... 293
Table 4C.4: Inter Item Descriptive Statistics of Factor: Design of Organization and Resources........................................ 294
Table 4C.5: Inter Item Descriptive Statistics of Factor: Setting Goals and Standards ............................................. 295
Table 4C.6: Inter Item Descriptive Statistics of Factor: Technology and IT Support ...................................................... 295
Table 4C.7: Inter Item Descriptive Statistics of Factor: Employee Performance Management.............................................. 296
Table 4C.8: Correlation of Model Variables........................................ 297
Table 4C.9: Regression outcomes .............................................. 299
Table 4C.10: Influence of employee characteristics on model variables- Summary of hypotheses H1a to H5c........... 302
Table 4C.11: Results of Chi square test on Hypotheses H1a to H5c .............................................................................. 303
Table 4C.12: Chi Square test for difference in the perception due to employee education on Design of organization and resources ............................................................................................................ 304
Table 4C.13: Chi Square test for difference in the perception due to employee education on Setting goals and standards- .......................................................................................................................... 305
Table 4C.14: Chi Square test for difference in the perception due to employee cadre on Setting goals and standards...... 306

Table 5.1: Summary of Model Variables and Impacting Customer Characteristics................................................................. 313
Table 5.2: Summary of Influence of Demographic Characteristics on Model Variables .................................................... 315
Table 5.3: Differences in the Perceptions due to Gender ........... 320
Table 5.4: Differences in the Perceptions due to Age............... 320
Table 5.5: Differences in the Perceptions due to Occupation...... 321
Table 5.6: Differences in the Perceptions due to Type of Service 321
Table 5.7: Differences in the Perception due to Period of Usage .322
Table 5.8: Projects Undertaken by BSNL for Revival .............. 324
Table 5.9: Salient Points of Benchmarking of Customer Service Centers of BSNL and AirTel on Range of Services Provided to Customers ......................................................... 325
