ACKNOWLEDGEMENTS

I am very grateful to Prof. Asis Datta for his valuable guidance, constant encouragement and understanding throughout the progress of this work.

I thank Dean, School of Life Sciences for the facilities.

I am also thankful to Professor H.K. Das for his suggestions and for allowing me to use some of his laboratory facilities. I am thankful to Professors Sipra Guha Mukherjee, Nazma Baquer, Sudhir K. Sopory and Rajendra Prasad for their advice and help. I also thank Drs. Kasturi Datta, K.C. Upadhyaya, Alok Bhattacharya and Sudha Bhattacharya for their help.

I thank Dr. K. Ganesan who helped in my experimental problems and for all his suggestions. I also thank him for providing the proteinase antibody. I thank K. Natarajan for providing me the pTZ18U plasmid DNA.

I would like to thank Ganesan, Natarajan and Vijay, for their help in preparation of the thesis.

I also thank Anjana, Anuradha, Malathi, Prabha, Aneeta for their help. I specially thank Sarjeet for his expert
technical assistance. I am thankful to Sudhir, Savita, Mohan, Tarak, Bala, Prasad, Kumud, Virendra, Rajkishore, Mohanty, Vibha, Jacob, Kuljeet, Meena, Renu, Valsala, Uday, Anila, Thunga, Raghu and Amaresh, for their help in many ways.

I am particularly thankful to Bishu, Aurobindo and Bhagatram for their technical assistance. I also thank Alex, Khan, Ahmed, Saini and Chinmoy for technical support.

The love, encouragement and understanding of my family has been an everlasting source of strength and inspiration for me without which I would not have reached the present stage. My warmest thanks to my Ma, Baba, Kaku, Didi and Tumpa. I thank Jyotirmoy for his understanding and help in various ways. I also thank all my relatives and my in-laws for their understanding and patience.

Finally I thank UGC and ICAR for the fellowship.
