CHAPTER – 1

PROFILE OF TEXTILE INDUSTRY OF INDIA

1.1 History and Background

1.2 Colonization–An end of the Indian Textile Industry

1.3 MFA Quota Removal and Indian Textile Exports

1.4 Overview of the Global Textile Market

1.5 Changing Shares in World Trade

1.6 Share in World Trade by Region

1.7 Indian Textile Industry – Present Scenario

1.8 Process of Globalization

1.9 Reforms Era: Re- Emergence of the Indian Textile Industry

1.10 Present Situation in Indian Textile Industry

1.11 Vision for the Future

1.12 Introduction of Selected Units

I. Siyaram Silk Mills (SSML)
II. Digjam Ltd.(DGL)
III. Oswal Spinning & Wvg. Mills Ltd. (OSWML)
IV. Shri Dinesh Mills Ltd. (SDML)
V. Welspun India Ltd. (WIL)
VI. S.Kumar Nationwide Ltd.(SKNL)
VII. Mafatlal Industries Ltd. (MFTL)

References
CHAPTER – 2

CONCEPTUAL FRAMEWORK OF FINANCIAL PERFORMANCE AND PRODUCTIVITY MANAGEMENT

2.1 Concept of Efficiency and Performance
2.2 Financial Performance
2.3 Concept of Efficiency
2.4 Operational Efficiency
2.5 Measurement of Performance
2.6 Concept of Performance Appraisal
2.7 Meaning of Performance Appraisal
2.8 Basis of Performance Appraisal
2.9 Objective of Performance Appraisal
2.10 Concept of Profitability
2.11 Profit and Profitability
2.12 Concept of Financial Efficiency
2.13 Measurement Tools of Profitability
2.14 Types of Performance
2.15 Concept of Productivity
2.16 Production and Productivity
2.17 Significant of Productivity
2.18 Relationships of Productivity with Efficiency
2.19 Concept of Profitability Performance
2.20 Measurement Tools of Financial Efficiency
2.21 Evaluation Methods
   I. Ratio Analysis
   II. Trend Analysis
   III. Comparative Statement Analysis
   IV. Fund Flow Analysis
   V. Other Techniques of Analysis

2.22 Significance of the Study

References
CHAPTER – 3
RESEARCH METHODOLOGY

3.1 Problem Identification

3.2 Survey of Existing Literature

3.3 Title of the Problem

3.4 Objectives of the Study

3.5 Hypothesis

3.6 Scope of the Study

3.7 Period of the Study

3.8 Data Collection and Data Analysis

3.9 (I) Tools of Analysis:
   1. Output and Input Variable Analysis
   2. Ratio Analysis
   3. Trend Analysis

(II) Statistical Tools
   1. Chi-Square Test
   2. Index Numbers
   3. Arithmetic Mean
   4. Standard Deviation
   5. Co-efficient of Variation

3.10 Chapter Plan

3.11 Limitations of Study

References
CHAPTER – 4
ANALYSIS OF FINANCIAL EFFICIENCY

4.1 Concept of Financial Efficiency and Performance

4.2 Financial Performance

4.3 Financial Efficiency

4.4 Operational Efficiency

4.5 Concept of Profitability

4.6 Profit and Profitability

4.7 Measurement Tools of Profitability

(I) Profitability Ratio in Relation to Sales
   1. Gross Profit Ratio
   2. Operating Profit Ratio
   3. Net Profit Ratio:

(II) Profitability In Relation to Capital Employed:
   1. Earning Per Equity Share
   2. Return on Capital Employed
      (i) Return on Gross Capital Employed
      (ii) Return on Net Capital Employed
   3. Return on Owners Equity

References
CHAPTER – 5
ANALYSIS OF MATERIAL PRODUCTIVITY

5.1 Concept of Productivity
5.2 Productivity and Production
5.3 Productivity and Profitability
5.4 Partial Productivity and Overall Productivity
5.5 Measurement of Output
5.6 Measurement of Input
5.7 Productivity Accounting
5.8 Material Productivity
5.9 Computation of Material Productivity
5.10 Steps for Computation of Material Productivity
5.11 Material Productivity Analysis of Selected Companies
5.12 Conclusion
References
CHAPTER – 6

ANALYSIS OF LABOUR PRODUCTIVITY

6.1 Labour Productivity

6.2 Steps in Calculation for Labour Productivity

6.3 Hypothesis Based on Chi-square

6.4 Labour Productivity in Selected Companies

6.5 Comparative Analysis of Labour Productivity

References
CHAPTER – 7
ANALYSIS OF OVERHEADS
PRODUCTIVITY

7.1 Overheads Productivity

7.2 Steps in Calculation for Overheads Productivity

7.3 Hypothesis Based on Chi-square

7.4 Overheads Productivity in Selected Companies

7.5 Comparative Analysis of Overheads Productivity

References
CHAPTER – 8
ANALYSIS OF OVERALL
PRODUCTIVITY

8.1 Overall Productivity
8.2 Steps in Calculation for Total Productivity
8.3 Hypothesis Based on Chi-square
8.4 Overall Productivity in Selected Companies
8.5 Comparative Analysis of Overall Productivity

References
CHAPTER – 9
SUMMARY, CONCLUSION AND SUGGESTIONS

9.1 Profile of the Textile Industry in India
9.3 Research Methodology
9.4 Analysis of Financial Efficiency
9.5 Analysis of Material Productivity
9.6 Analysis of Labour Productivity
9.7 Analysis of Overheads Productivity
9.8 Analysis of Overall Productivity
9.9 Suggestions
