ACKNOWLEDGEMENT

The effort made during the current research work would have been incomplete without the acknowledgement of all those who have helped me in any form during this endeavor.

First of all, I bow my head in front of the almighty for providing me the inner strength and courage to complete this research work, and to extract new prospects from the field of the current study.

Further, I am very grateful to my guide Dr. Sonia Chawla and my co-guide Dr. Gurdip Singh for providing me the opportunity to work under their supervision. I am whole heartedly thankful to them for their motivational words and necessary insights provided during the course of this study without which this research work would not have been completed in its present form.

I give my sincere thanks to I.K. Gujral Punjab Technical University, Kapurthala for providing me the opportunity to conduct this research work under its aegis and allowing me to use its resources for the accomplishment of this study.

I further express my gratitude to my mother, father and wife who have always been supportive to me throughout the time period of this work.

Lastly, I want to acknowledge the role of my friends who have helped me to complete this research work with their cooperative behavior.

Savdeep Vasudeva
