CONTENTS

INTRODUCTION .. .. .. 1

REVIEW OF LITERATURE .. .. .. 6

1. Components of Genetic Variance and Their Estimation 6
2. Partial Diallel .. .. .. 10
3. Nature of Gene Action and Genetic Variance for Different Characters in Pearl Millet .. 12
4. Studies on Combining Ability in Pearl Millet .. 19
5. Studies on Heterosis and Inbreeding Depression in Pearl Millet .. .. 22

MATERIALS AND METHODS .. .. .. 28

1. Characters Studied .. .. .. 30
2. Statistical Procedures .. .. .. 32
   1) Analysis of variance .. .. .. 32
   ii) Diallel analysis .. .. .. 32
      (a) Graphic analysis .. .. .. 33
      (b) Estimation of components of genetic variance .. .. .. 35
      (c) Combining ability analysis .. .. .. 38
   iii) Partial diallel analysis .. .. .. 42
   iv) Heterosis .. .. .. 46

EXPERIMENTAL RESULTS .. .. .. 48

1. Graphic Analysis of Diallel Crosses .. 48
2. Estimates of the Genetic Components .. 53
3. Combining Ability Analysis .. .. 58
   1) General combining ability effects .. 58
   ii) Specific combining ability effects .. 61
4. Partial diallel .......................... 65
   1) Variance due to general and specific combining ability ........ 65
   2) General combining ability effects ........ 66
   3) Detection of differences ........ 70

5. Heterosis .................................. 71

DISCUSSION .................................. 76

1. Nature and Magnitude of Genetic Variance in Relation to Pearl Millet Improvement .. 78

2. Combining Ability and Choice of the Parents ........ 86

3. Heterosis and Its Utilization in Pearl Millet ........ 90

4. Usefulness of Partial Diallel Crosses in Characterising Genetic Parameters in Pearl Millet 93

SUMMARY ..................................... 99

REFERENCES ................................... 104

APPENDIX  : Mean performance of the parents for the eight characters in pearl millet ---
