Acknowledgement

My heart is full of memories of my mentor Late Prof. S. R. Kajale who took the lead to heaven before the completion of this work. It was under his tutelage that I could focus and develop interest in micromachining. I owe him my eternal gratitude.

I am greatly indebted to Prof. P. K. Mishra, Professor Emeritus, School of Mechanical Sciences, IIT Bhubaneshwar without whose persistent motivation and encouragement I would not have dared to develop a machine. Prof. Mishra is the one teacher who truly made a difference in my life.

I would like to express my sincere gratitude to my guide Dr. S. S. Pardeshi. His timely and scholarly advice, meticulous scrutiny and scientific approach have helped me to a very great extent to accomplish this task. There is a lot much one can learn from him.

I would like to thank my progress monitoring committee members Prof. B. N. Chaudhari and Prof. N. B. Dhokey for their timely, insightful comments and encouragement.

My sincere thanks also goes to Prof. B.B. Ahuja, officiating Director, College of Engineering Pune and Prof. D. N. Malkhede, Professor and Head, Mechanical Engineering Department for providing me the facilities and support to carry out my work at Microsystems Engineering laboratory, COEP. Special thanks are due to Prof. A.D. Sahasrabudhe, Prof. S. N. Sapali, Prof. D. W. Pande for their co-operation.

I am also very much grateful to Prof. J. B. Doshi, Prof. Prashant Kumar and Prof. V. M. Domkundwar, Professor Emeritus, Department of Mechanical Engineering for their words of wisdom and affection they showered on me.

I express my deep sense of appreciation to Dr. S. B. Patil, Dr. S.S. Bhavikatti and V. K. Haribhakta for their moral support and valuable suggestions during this work. A very special thanks goes out to Dr. P. R. Dhamangaonkar, Dr. G. N. Kulkarni and Dr. A. P. Bhattu for their inexorable help and moral support throughout the research work. Many friends have helped me stay sane through these difficult years. I greatly value their friendship and I deeply appreciate their belief in me.

I appreciate the efforts of my dear students Nikhil, Akib, Siddheswar, Dhawal and Abhishek for their support and help. I am thankful to Shri. R. J. Pol for his help during experimentation.
I am thankful to Dr. S. D. Kendre, Dept. of Mathematics, Savitribai Phule Pune University for sparing time for evaluating the mathematical part of the report.

Most importantly, none of this would have been possible without the love and patience of my family. I must acknowledge my husband Hemant who remained willing to engage with the struggle, and ensuing discomfort, to support me in my determination. I would like to express my heart-felt gratitude and deepest appreciation to my lovely daughters, Manali and Mugdha. I express my reverence to my mother and father, who continue to learn, grow and develop and who have been a source of encouragement and inspiration to me throughout my life.

Mrs. Preetam Hemant Selmokar
